MOURNING THE LOSS OF FORMER CONGRESSMAN JAMES C. CLEVELAND

(Mr. BASS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BASS. Mr. Speaker, New Hampshire today mourns the loss yesterday of former Congressman James C. Cleveland. Congressman Cleveland served ably from the Second Congressional District in New Hampshire from 1963 until 1980, when he retired and his seat was taken by now Senator JUDD GREGG.

Congressman Cleveland was a conservationist, a sportsman, an attorney. Indeed, he set up a law practice with my uncle in Concord in the fifties. I think what is most important to us was that Congressman Cleveland represented in the sixties and seventies

many of the values that we as Republicans now hold dear to us, fiscal conservatism and a concern for the environment as well.

Mr. Speaker, I am saddened by the loss of Congressman Cleveland. He was a political ally. He was an adviser. But, most important to me, he was a dear friend.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of May 12, 1995, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

FREE THE DISTRICT OF COLUMBIA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from the District of Columbia [Ms. NORTON] is recognized for 5 minutes.

Ms. NORTON. Mr. Speaker, according to this morning's paper, the majority leader of the Senate, Mr. DOLE, said, and I am quoting him, concerning a Federal Government shutdown, "I don't believe we should shut down the Government. I think it would be a mistake. I do not believe it should happen. I don't believe it will happen."

I think the majority leader is probably right. The Congress would be insane or close to it to shut the Government down 10 days before Christmas. A lot of folks who are not Federal employees and are nowhere close to Federal employees would regard that as the act that deserved the Scrooge Award of 1995.

But will the Congress overlook the District of Columbia and allow it the short continuing resolution that I am certain will come for Federal employees? My prediction is you will probably let the Government stay open until we get back from the recess.

Mr. Speaker, I am here to explain that for the District, that does almost nothing, because we are not a Federal agency. We are a city of almost 600,000 people, and you cannot run a complicated city, down on its luck, with 2- and 3-week continuing resolutions. You then have to calibrate how much money you spend on the basis of for example, if it is 2 weeks, one-fourteenth, so you do not overobligate. With the city in the financial condition it is in, that should be unthinkable.

There is a very special congressional responsibility, therefore, to release in the next continuing resolution the District's money, raised solely in the District, until such time as an appropriation bill has been signed. I would hope that an appropriation bill will be signed before December 15. But, very frankly, our appropriation is stuck on stupid. It is stuck up here on controversial issues having nothing to do with the wishes of the people of the District of Columbia. So I cannot guarantee that by December 15 our appropriation will be signed.

I have a bill that would allow the District to spend its own money until such time as an appropriation bill is signed. That way we would have the flexibility to run the city. Otherwise, we are put in the position where, if unfunded mandates such as AFDC have to be matched on time, as they do, and a payroll has to be paid on time, as it does, we could overobligate.

The Congress has been most critical of the District for what it says has been overobligation in the past. The last thing the Congress, I am sure, would like to do, is put the District in the position where it is between the hardest rock and the worst hard place, where it had unfunded mandates and funded mandates that it had to meet and had no way to meet them because it can only spend a certain percentage of its funds.

The Washington Post said in an editorial recently:

House Speaker Gingrich, Subcommittee on D.C. Appropriations Chairman Jim Walsh and other Congressional leaders who seek to bring financial order to this city should see the importance of separating the local functions as well as the responsibilities of the Control Board and chief financial officer from Federal stalemates. If their concern for the District's financial stability is genuine, they should press for immediate enactment of a continuing resolution, as well as for protections against any more situations like this.

Shutting the District down, when its own money is here only because the Congress requires it to come here, not because the Congress provides it, is an outrage. I ask this body, if and when such time should come that a continuing continuing resolution is needed to keep Federal agencies going, and if that continuing resolution is a short-term continuing resolution, that you allow the District to spend its own money—and about 80 percent of the money in our appropriation is raised by hard working D.C. taxpayers in the District of Columbia—and that you allow that money to be spent, so that the District will not be thrown into worse financial shape than is already the case.

That is not what this body desires. This body has been working beneficially with the District. So has the Financial Authority. We do not need another setback. I acknowledge that the District is responsible for many of its own problems, but the fact is, it is trying to get hold of those problems now. The District should not be thrown into further disarray because the Congress goes into short-term continuing resolutions, overlooking the difference between HHS, the State Department, and HUD and the District of Columbia.

The District is a living, breathing city that has suffered tremendously throughout this period. It is the innocent bystanders for whom I speak now, not the Mayor, not the City Council and not the Delegate, but the hard working residents who pay taxes in the District of Columbia. Free the District of Columbia.

PERMISSION FOR COMMITTEE ON WAYS AND MEANS TO HAVE UNTIL MIDNIGHT TONIGHT TO FILE REPORT ON H.R. 2684, THE SENIOR CITIZENS RIGHT TO WORK ACT OF 1995

Mr. BASS. Mr. Speaker, I ask unanimous consent that the Committee on Ways and Means may have until midnight tonight to file a report to accompany H.R. 2684, the Senior Citizens Right to Work Act of 1995.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Hampshire?

There was no objection.

ILL-ADVISED MISSION IN BOSNIA SHOULD BE ABANDONED

The SPEAKER pro tempore. Under the Speaker's announced policy of May 12, 1995, the gentleman from Missouri [Mr. SKELTON] is recognized for 60 minutes as the designee of the minority leader.

Mr. SKELTON. Mr. Speaker, Friday evening, the Vice President was on ABC News "Nightline." In his comments, the Vice President stated that the task of bringing peace to Bosnia would be done at a minimal risk to American troops. This would be true, but for one provision to which the administration has signed up: namely, the guaranteeing and coordinating of the arming and training of one of the belligerents.

According to testimony by Secretary of State Warren Christopher, our Government policy is supervising—that is, guaranteeing and coordinating—the arming and training of Bosnian Moslem forces. This is a flawed and dangerous policy. It gives the appearance that we favor one side of this bitter internal struggle over another. It makes our Government appear to be a combatant. We cannot be both a combatant and a peacekeeper.

This policy of arming and training Bosnian Moslems—even through a third party, but guaranteed and supervised by us—concerns me greatly. Three points are to be considered:

First, already, there exists a parity between the warring factions, the Serbs on the one hand and the Croat-Moslem Federation on the other. Note the recent battlefield successes by the Federation. Further, the Moslems have been receiving arms by way of Croatia for some time.

Second, our allies are not in favor of arming and training the Moslem forces. The French and British, in particular, are against it. This was pointed out in news reports Thursday morning.

Third, the arming and training of the Moslem forces, quoting the Vice President: "we are going to see that it happens * * * we commit to making sure that is going to happen."

Mr. Speaker, this is a flawed policy. The Vice President concedes that it would be wrong for the American troops to directly arm and train the

Bosnian Moslems, as it would destroy the even-handedness and perception of even-handedness of our troops in the field. I say that the United States guaranteeing and coordinating this effort is just as bad. Having America in charge of this effort—having other countries or other persons contracted to do the job—still destroys the even-handedness and perception of even-handedness of our Americans in uniform. This policy has red, white, and blue stamped all over it. This policy paints each American soldier with a bulls'-eye target.

In order for peacekeeping to work, there must be trust—trust of the former belligerents in the impartiality of the peacekeepers. This trust and confidence will not exist so long as our Government pursues the policy of supervising the arming and training of the Moslems. It is one thing, in the words of Secretary of Defense William Perry, to "be the meanest dog in town." It is another not to have to fight at all.

The U.S. Army Field Manual, regarding peacekeeping, states: "Peacekeeping requires an impartial, even-handed approach." Our National Security Committee heard testimony from retired generals and others who stressed the need for peacekeepers to be neutral, to be even-handed.

Soon, our American soldiers, some 20,000 of them, will arrive in Bosnia as peacekeepers between the three warring sides: the Croats, the Bosnian Serbs, and the Bosnian Moslems. A few weeks ago, in a White House meeting, Deputy Secretary of State Strobe Talbot told me of plans for the U.S. Government to arm and train the Bosnian Moslems. Being concerned with this policy, I wrote a letter to the President on October 31, criticizing this stance. After the peace agreement was signed, I wrote another letter on November 22. After I, along with several others, criticized this plan—which would clearly put our troops in danger by destroying their required impartiality—a new plan to arm and train then appeared. This new arrangement is one of farming out, contracting out, laundering out the task to third parties.

There is nothing in the Dayton peace agreement, initiated by the three belligerents, that requires the United States to arm and train anyone. This slightly altered policy still violates the required impartiality of the United States, and that lack of impartiality will be transferred to our soldiers serving as peacekeepers.

Ordinary military risk is one thing; inviting vengeance against our troops is another.

Those who came up with this wrong-headed policy should learn the wisdom of the Missouri Ozarks: "Those who aid my enemy become my enemy." The Serbs will look upon American troops as enemies and the Moslems will expect favors.

Bosnia is a snake pit of anger, hatred, and vengeance. We are putting

our troops in a snake pit while we are angering half the snakes. This policy could well be a death warrant for scores of American men and women in uniform. Taking sides in previous peacekeeping efforts—1983 in Beirut and 1993 in Mogadishu—brought tragedy to Americans in uniform. We should learn from the past.

The President agreed to furnish 20,000 troops for peacekeeping—not 20,000 targets for vengeance.

Remember, this is the Balkans, the scene of centuries of hate, centuries of killing, and centuries of vengeance. I, for one, see no reason for American troops to be made victims of vengeance because of this wrong-headed policy of arming and training the Moslems.

As a matter of fact, our troops have not been forewarned of the additional security risk that our policy could bring. On December 1, I wrote the Secretary of Defense a letter, urging his Department to issue memorandums to the soldiers to be on extra alert, as this policy puts them at higher risk.

I understand the need for America to assume a leadership role in the world. I understand the need for America to be the leader of NATO. But I do not understand why American troops will be inserted into this war-torn country as both peacekeepers and combatants. The credibility of American soldiers as impartial peacekeepers will be lost.

I urge this administration to abandon this policy, as it will undoubtedly bring needless loss of life and injury to our fine troops in Bosnia.

I include for the RECORD my letters dated October 31, November 22, and December 1.

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, October 31, 1995.

THE PRESIDENT,
The White House, Washington, DC.

DEAR MR. PRESIDENT: Please know that I very much want to help you in supporting the promising Bosnian peace initiative. However, I have great concerns about the effort to equip and train the Bosnian Muslims, especially while U.S. troops are operating in Bosnia.

I believe the "equip and train" effort corrupts the implementation force (IFOR) as a neutral peace force, and needlessly places the lives of American troops at risk. The effort will cause America to be perceived as a party to the conflict in the eyes of the Bosnian Serbs, their friends, and their allies. There will be no avoiding it, even if an attempt is made to keep the effort separate from IFOR. The message received in the region will be clear: American troops are not in Bosnia to implement a peace agreement, but rather to protect the Bosnian Muslims.

The purpose of the "equip and train" effort is to establish military parity. However, given what has happened in Bosnia over the last three months, I question the assertion that a military imbalance exists. On the contrary, I suggest a regional military balance has existed for sometime. Furthermore, I sense that the warring factions have grown weary of prolonging the fight.

We are walking down the dangerous path toward an arms race in Bosnia just at the time when American troops will attempt to bring peace to an area suffering from a savage war. Will not the Russians respond to the

cries of their ethnic cousins, the Bosnian Serbs, who fear being driven from their homes in the future by a menacing Bosnian Muslim force? Our effort to equip and train Bosnian Muslims could bring more war to the region.

No matter how we try to separate it from IFOR, the effort to equip and train will have "RED, WHITE, AND BLUE" written all over it. This would jeopardize the safety of U.S. forces. The Serb partisans will have an incentive to make American troops pay the price, and American troops will become the object of Serb anger and acts of vengeance.

Therefore, I believe that we should defer any effort to equip and train until IFOR departs the country. My suggestion keeps faith with the Bosnian Muslims without needlessly jeopardizing the lives of American troops.

Again, Mr. President, I want to help you bring peace to Bosnia. But I would find it difficult to support U.S. participation in IFOR should we embark on the dangerous path of equipping and training Bosnian Muslims.

Sincerely,

IKE SKELTON,
Member of Congress.

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, November 22, 1995.

THE PRESIDENT,
The White House, Washington, DC.

DEAR MR. PRESIDENT: Now that a Bosnian peace agreement has been reached, our attention turns to the impending deployment of American troops to Bosnia as peacekeepers. With the proposal for American military participation in the implementation force, it is critical that Congress have the answer to the question I have raised with you and members of your Administration over the past few weeks. The question is:

Will the U.S. government or any of its allies supply training, armaments or equipment, either directly or indirectly, to any of the belligerents or former belligerents between now and the end of our troop involvement in Bosnia?

I ask the question because we have had the sad experience of American forces being viewed as favoring one side over another in previous conflicts, resulting in American injuries and deaths. I refer to Beirut in 1983 and Mogadishu in 1993. This is especially important in light of the news report on the BBC this morning that the Bosnian Serb leadership is sharply divided on this agreement.

I would appreciate hearing from you.

Very truly yours,

IKE SKELTON,
Member of Congress.

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, December 1, 1995.

Hon. WILLIAM J. PERRY,
The Secretary of Defense, Washington, DC.

DEAR SECRETARY PERRY: If the U.S. Department of State insists on arming and training the Croat-Muslim Federation—with an American guarantee and coordination of the effort, as testified to by Secretary Christopher yesterday—will the 20,000 American soldiers in the Bosnia-Herzegovina region be forewarned of this additional security risk? Will they be informed of the possibility of vengeful acts by the Serbs, or of hostilities from Muslims expecting but denied favorable treatment?

This is a major security issue. I urge the Department of Defense to issue memoranda to each soldier to be on extra alert, as this State Department policy will put them at higher risk.

Please respond at your earliest convenience. Thank you.

Sincerely,

IKE SKELTON,
Member of Congress.

"(1) PROSPECTIVE RELIEF.—(A) Prospective relief in any civil action with respect to prison conditions shall extend no further than necessary to correct the violation of the Federal right of a particular plaintiff or plaintiffs. The court shall not grant or approve any prospective relief unless the court finds that such relief is narrowly drawn, extends no further than necessary to correct the violation of the Federal right, and is the least intrusive means necessary to correct the violation of the Federal right. The court shall give substantial weight to any adverse impact on public safety or the operation of a criminal justice system caused by the relief.

"(B) The court shall not order any prospective relief that requires or permits a government official to exceed his or her authority under State or local law or otherwise violates State or local law, unless—

"(i) Federal law permits such relief to be ordered in violation of State or local law;

"(ii) the relief is necessary to correct the violation of a Federal right; and

"(iii) no other relief will correct the violation of the Federal right.

"(C) Nothing in this section shall be construed to authorize the courts, in exercising their remedial powers, to order the construction of prisons or the raising of taxes, or to repeal or detract from otherwise applicable limitations on the remedial powers of the courts.

"(2) PRELIMINARY INJUNCTIVE RELIEF.—In any civil action with respect to prison conditions, to the extent otherwise authorized by law, the court may enter a temporary restraining order

or an order for preliminary injunctive relief. Preliminary injunctive relief must be narrowly drawn, extend no further than necessary to correct the harm the court finds requires preliminary relief, and be the least intrusive means necessary to correct that harm. The court shall give substantial weight to any adverse impact on public safety or the operation of a criminal justice system caused by the preliminary relief and shall respect the principles of comity set out in paragraph (1)(B) in tailoring any preliminary relief. Preliminary injunctive relief shall automatically expire on the date that is 90 days after its entry, unless the court makes the findings required under subsection (a)(1) for the entry of prospective relief and makes the order final before the expiration of the 90-day period.

"(3) PRISONER RELEASE ORDER.—(A) In any civil action with respect to prison conditions, no prisoner release order shall be entered unless—

"(i) a court has previously entered an order for less intrusive relief that has failed to remedy the deprivation of the Federal right sought to be remedied through the prisoner release order; and

"(ii) the defendant has had a reasonable amount of time to comply with the previous court orders.

"(B) In any civil action in Federal court with respect to prison conditions, a prisoner release order shall be entered only by a three-judge court in accordance with section 2284 of title 28, if the requirements of subparagraph (E) have been met.

"(C) A party seeking a prisoner release order in Federal court shall file with any request for such relief, a request for a three-judge court and materials sufficient to demonstrate that the requirements of subparagraph (A) have been met.

"(D) If the requirements under subparagraph (A) have been met, a Federal judge before whom a civil action with respect to prison conditions is pending who believes that a prisoner release order should be considered may sua sponte request the convening of a three-judge court to determine whether a prisoner release order should be entered.

"(E) The three-judge court shall enter a prisoner release order only if the court finds by clear and convincing evidence that—

"(i) crowding is the primary cause of the violation of a Federal right; and

"(ii) no other relief will remedy the violation of the Federal right.

"(F) Any State or local official or unit of government whose jurisdiction or function includes the appropriation of funds for the construction, operation, or maintenance of program facilities, or the prosecution or custody of persons who may be released from, or not admitted to, a prison as a result of a prisoner release order shall have standing to oppose the imposition or continuation in effect of such relief and to seek termination of such relief, and shall have the right to intervene in any proceeding relating to such relief.

"(b) TERMINATION OF RELIEF.—

"(1) TERMINATION OF PROSPECTIVE RELIEF.—(A) In any civil action with respect to prison conditions in which prospective relief is ordered, such relief shall be terminable upon the motion of any party or intervenor—

"(i) 2 years after the date the court granted or approved the prospective relief;

"(ii) 1 year after the date the court has entered an order denying termination of prospective relief under this paragraph; or

"(iii) in the case of an order issued on or before the date of enactment of the Prison Litigation Reform Act, 2 years after such date of enactment.

"(B) Nothing in this section shall prevent the parties from agreeing to terminate or modify relief before the relief is terminated under subparagraph (A).

“(2) IMMEDIATE TERMINATION OF PROSPECTIVE RELIEF.—In any civil action with respect to prison conditions, a defendant or intervenor shall be entitled to the immediate termination of any prospective relief if the relief was approved or granted in the absence of a finding by the court that the relief is narrowly drawn, extends no further than necessary to correct the violation of the Federal right, and is the least intrusive means necessary to correct the violation of the Federal right.

“(3) LIMITATION.—Prospective relief shall not terminate if the court makes written findings based on the record that prospective relief remains necessary to correct a current or ongoing violation of the Federal right, extends no further than necessary to correct the violation of the Federal right, and that the prospective relief is narrowly drawn and the least intrusive means to correct the violation.

“(4) TERMINATION OR MODIFICATION OF RELIEF.—Nothing in this section shall prevent any party or intervenor from seeking modification or termination before the relief is terminable under paragraph (1) or (2), to the extent that modification or termination would otherwise be legally permissible.

“(c) SETTLEMENTS.—

“(1) CONSENT DECREES.—In any civil action with respect to prison conditions, the court shall not enter or approve a consent decree unless it complies with the limitations on relief set forth in subsection (a).

“(2) PRIVATE SETTLEMENT AGREEMENTS.—(A) Nothing in this section shall preclude parties from entering into a private settlement agreement that does not comply with the limitations on relief set forth in subsection (a), if the terms of that agreement are not subject to court enforcement other than the reinstatement of the civil proceeding that the agreement settled.

“(B) Nothing in this section shall preclude any party claiming that a private settlement agreement has been breached from seeking in State court any remedy available under State law.

“(d) STATE LAW REMEDIES.—The limitations on remedies in this section shall not apply to relief entered by a State court based solely upon claims arising under State law.

“(e) PROCEDURE FOR MOTIONS AFFECTING PROSPECTIVE RELIEF.—

“(1) GENERALLY.—The court shall promptly rule on any motion to modify or terminate prospective relief in a civil action with respect to prison conditions.

“(2) AUTOMATIC STAY.—Any prospective relief subject to a pending motion shall be automatically stayed during the period—

“(A)(i) beginning on the 30th day after such motion is filed, in the case of a motion made under paragraph (1) or (2) of subsection (b); or

“(ii) beginning on the 180th day after such motion is filed, in the case of a motion made under any other law; and

“(B) ending on the date the court enters a final order ruling on the motion.

“(f) SPECIAL MASTERS.—

“(1) IN GENERAL.—(A) In any civil action in a Federal court with respect to prison conditions, the court may appoint a special master who shall be disinterested and objective and who will give due regard to the public safety, to conduct hearings on the record and prepare proposed findings of fact.

“(B) The court shall appoint a special master under this subsection during the remedial phase of the action only upon a finding that the remedial phase will be sufficiently complex to warrant the appointment.

“(2) APPOINTMENT.—(A) If the court determines that the appointment of a special master is necessary, the court shall request that the defendant institution and the plaintiff each submit a list of not more than 5 persons to serve as a special master.

“(B) Each party shall have the opportunity to remove up to 3 persons from the opposing party's list.

“(C) The court shall select the master from the persons remaining on the list after the operation of subparagraph (B).

“(3) INTERLOCUTORY APPEAL.—Any party shall have the right to an interlocutory appeal of the judge's selection of the special master under this subsection, on the ground of partiality.

“(4) COMPENSATION.—The compensation to be allowed to a special master under this section shall be based on an hourly rate not greater than the hourly rate established under section 3006A for payment of court-appointed counsel, plus costs reasonably incurred by the special master. Such compensation and costs shall be paid with funds appropriated to the Judiciary.

“(5) REGULAR REVIEW OF APPOINTMENT.—In any civil action with respect to prison conditions in which a special master is appointed under this subsection, the court shall review the appointment of the special master every 6 months to determine whether the services of the special master continue to be required under paragraph (1). In no event shall the appointment of a special master extend beyond the termination of the relief.

“(6) LIMITATIONS ON POWERS AND DUTIES.—A special master appointed under this subsection—

“(A) may be authorized by a court to conduct hearings and prepare proposed findings of fact, which shall be made on the record;

“(B) shall not make any findings or communications *ex parte*;

“(C) may be authorized by a court to assist in the development of remedial plans; and

“(D) may be removed at any time, but shall be relieved of the appointment upon the termination of relief.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2076) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1996, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

Senate Amendment: The Senate deleted the entire House bill after the enacting clause and insert the Senate bill. The conference agreement includes a revised bill.

OVERSEAS STAFFING

The conferees agree with the concern expressed in the House report concerning the lack of a system for determining overall allocation of resources and costs among agencies for operations outside of the U.S. Expansion of staffing or presence overseas is to be brought to the attention of the House and Senate Appropriations Committees at the outset of the planning process, well in advance of the proposed use of any appropriated funds, preferably through the annual budget submission. The conferees are intent upon finding the proper way to assure control of the deployment of personnel and resources outside of the U.S.

TITLE I—DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$74,282,000 for General Administration as provided in both the House and Senate bills. The conference agreement also includes a provision that limits the number of positions and amounts expended for the Department Leadership and Executive Support programs as included by the Senate, but modifies the provision to permit augmentation of the Department Leadership program by reimbursable and non-reimbursable personnel and to allow for continuation of reimbursable positions for the Office of Freedom of Information and Privacy Appeals. The House bill did not contain a provision on this matter.

The conference agreement also assumes elimination of the Office of the Associate Attorney General.

COUNTERTERRORISM FUND

The conference agreement includes \$16,898,000 for the Counterterrorism Fund, instead of \$26,898,000 as proposed by both the House and Senate bills. The conferees understand that balances of \$24,445,000 remain available from the 1995 Supplemental Appropriation, Public Law 104-19, for authorized purposes of this Fund.

ADMINISTRATIVE REVIEW AND APPEALS

The conference agreement includes \$86,666,000 for Administrative Review and Appeals as proposed by the Senate, instead of \$87,516,000 as proposed by the House. Of this amount, the conference agreement provides that \$47,780,000 will be provided from the Violent Crime Reduction Trust Fund (VCRTF) for both expedited asylum and deportation hearings as proposed by the House, instead of providing \$14,347,000 from the VCRTF only for expedited deportation hearings as proposed by the Senate. The conferees agree that of the total amount provided, \$85,252,000 is included for the Executive Office for Immigration Review and \$1,414,000 is included for the Office of the Pardon Attorney.

The conference agreement also includes technical bill language that allows outstanding balances for these programs from prior years to be merged with this new appropriation account.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$28,960,000 for the Office of Inspector General, instead of \$30,484,000 as proposed by the House and \$27,436,000 as proposed by the Senate.

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$5,446,000 for the U.S. Parole Commission as proposed by both the House and Senate bills.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

(INCLUDES TRANSFER OF FUNDS)

The conference agreement includes a direct appropriation of \$409,520,000 for General Legal Activities, as proposed by both the House and Senate bills. Of this amount, the conference agreement provides that \$7,591,000 will be derived from the Violent Crime Reduction Trust Fund (VCRTF) as proposed by the House, instead of \$2,991,000 from the VCRTF as proposed by the Senate, to support immigration initiatives. In addition to this amount, the conferees agreed to provide \$12,000,000 by transferring balances available in the Department of Justice Working Capital Fund. Thus, the total amount provided for General Legal Activities is \$421,520,000.

Both the House and Senate bills assumed a transfer of General Legal Activities resources to the U.S. Attorneys program. The

conference agreement does not include this transfer of resources. However, the conferees agree that the Attorney General should report to the Committees on Appropriations of both the House and Senate by March 1, 1996, on the transfer of attorneys to field locations of the Environment and Tax Divisions and offices that are co-located with U.S. Attorneys.

The conferees have also agreed that funding for the Community Relations Service activities will not be provided from funds available under the General Legal Activities account, as proposed by the House.

THE NATIONAL CHILDHOOD VACCINE INJURY ACT

The conference agreement includes a reimbursement of \$4,028,000 for fiscal year 1996 from the Vaccine Injury Compensation Trust Fund to the Department of Justice, as proposed by both the House and Senate bills.

SALARIES AND EXPENSES, ANTITRUST DIVISION

The conference agreement provides \$85,143,000 for the Antitrust Division as proposed by both the House and Senate bills. Of the amount provided, the conference agreement assumes, based on latest estimates, that \$19,360,000 will be derived from unobligated offsetting collections from the prior year, instead of \$16,000,000 as assumed in both the House and Senate bills.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The conference agreement includes \$925,509,000 for the U.S. Attorneys, instead of \$911,556,000 as proposed by the House and \$939,463,000 as proposed by the Senate. Of this amount, the conference agreement provides that \$30,000,000 will be derived from the Violent Crime Reduction Trust Fund (VCRTF) as proposed by the Senate, instead of \$14,731,000 from the VCRTF as proposed by the House. The conferees agree that amounts provided from the VCRTF shall be used to support expedited deportation of denied asylum applicants, Federal Victim's Counselors under the Violence Against Women Act, and increased demands for criminal prosecution and related activities.

The conference agreement provides for the following: (1) requested adjustments to base, including restoration of absorption of the 1996 pay raise; (2) \$10,000,000 for security upgrades at U.S. Attorneys offices; (3) \$2,158,000 for increased prosecution of violators of immigration laws; (4) \$9,231,000 from the VCRTF for expedited deportation of denied asylum applicants; (5) \$48,083,000 to maintain attorney and support personnel hired in fiscal year 1995 and for additional attorneys and support for violent crime prosecution; and (6) \$500,000 to implement a program to appoint Federal Victim's Counselors. The conference agreement does not assume a transfer of resources from the General Legal Activities account to the U.S. Attorneys program, as proposed by the House. In addition, the conferees agree that to the extent possible within the resources provided, the Department of Justice should expand the pilot debt collection program, as stated in the Senate report.

The conference agreement also includes bill language to reflect the total number of positions and full-time equivalent (FTE) employment expected to be supported by the level of resources provided for the U.S. Attorneys in fiscal year 1996. Within the FTE provided, the conferees assume 300 FTE will support student interns. The conferees agree that this language is necessary as a result of the U.S. Attorneys mismanagement which led to the hiring of more employees in 1995 than could be sustained by the resource level provided in fiscal year 1995. The conferees' strong support for the mission of the U.S. Attorneys does not extend to careless hiring and fiscal management practices.

UNITED STATES TRUSTEE SYSTEM FUND

The conference agreement provides \$102,390,000 in budget (obligational) authority for the U.S. Trustees, instead of \$101,596,000 as proposed by the House and \$103,183,000 as proposed by the Senate. Of this amount, the conference agreement provides that \$44,191,000 will be derived from anticipated offsetting collections. In addition, under section 111, the conferees agree to include an extension of post-confirmation quarterly fee payments made under Chapter 11 as proposed in both the House and Senate bills and expect that these fees will apply to all pending Chapter 11 cases with confirmed reorganization plans.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The conference agreement provides \$830,000 for the Foreign Claims Settlement Commission as proposed by the House, instead of \$905,000 as proposed by the Senate.

SALARIES AND EXPENSES, UNITED STATES MARSHALS SERVICE

The conference agreement includes \$448,248,000 for the U.S. Marshals Service, instead of \$443,973,000 as proposed by the House and \$454,639,000 as proposed by the Senate. Of this amount, the conference agreement provides that \$25,000,000 will be derived from the Violent Crime Reduction Trust Fund (VCRTF) as proposed by the House, instead of \$15,000,000 from the VCRTF as proposed by the Senate.

The conference agreement provides for the following: (1) requested adjustments to base; (2) \$10,000,000 for security upgrades at existing courthouses; (3) \$18,209,000 for additional security personnel to staff new and expanded courthouses scheduled to open in 1996; and (4) \$11,066,000 for equipment and communications expenses in new courthouse locations. The conferees understand that the Marshals Service funded a number of requirements by reprogramming resources at the end of fiscal year 1995 and thus have not provided funding increases for requested items. The conferees agree that any additional funding for these items, if necessary, should be requested through a reprogramming of resources in fiscal year 1996.

FEDERAL PRISONER DETENTION (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$252,820,000 for Federal Prisoner Detention, instead of \$295,331,000 as proposed by the Senate and \$250,331,000 as proposed by the House. In addition to this amount, the conferees understand, that based on the latest carryover estimates, an additional \$33,511,000 is available for this program from unobligated balances from the prior year. The conferees have also agreed to provide an additional \$9,000,000 by transferring balances available in the Department of Justice Working Capital Fund. Thus, total funding provided for this account is \$295,331,000.

The conferees have also agreed to change the name of this appropriation from "Support of U.S. Prisoners" to "Federal Prisoner Detention".

FEES AND EXPENSES OF WITNESSES

The conference agreement includes \$85,000,000 for Fees and Expenses of Witnesses as proposed by both the House and Senate bills.

COMMUNITY RELATIONS SERVICE

The conference agreement provides \$5,319,000 for the Community Relations Service (CRS) instead of \$10,638,000 as proposed by the Senate and elimination of this program as a separate account as proposed by the House. The conferees agree that if emergent circumstances require additional funding for Conflict Prevention and Resolution activi-

ties of the CRS, the Attorney General may provide resources for these activities within transfer authorities provided under Section 605 of this Act.

The conferees have also agreed that the activities related to the resettlement of Cubans and Haitians should be transferred to the Immigration and Naturalization Service and that the costs of these activities should be supported by the Immigration Examinations Fee account.

ASSETS FORFEITURE FUND

The conference agreement provides \$30,000,000 for the Assets Forfeiture Fund instead of \$35,000,000 as provided in both the House and Senate bills. This reduction is based on a revised estimate of revenue from forfeited assets that will be available in fiscal year 1996.

RADIATION EXPOSURE COMPENSATION

ADMINISTRATIVE EXPENSES

The conference agreement includes \$2,655,000 for administrative expenses in accordance with the Radiation Exposure Compensation Act, as proposed by both the House and Senate bills.

PAYMENT TO RADIATION EXPOSURE COMPENSATION TRUST FUND

The conference agreement includes an advance appropriation of \$16,264,000 for fiscal year 1997 for payments to the Radiation Exposure Compensation Trust Fund, as proposed by both the House and Senate bills.

INTERAGENCY LAW ENFORCEMENT

The conference agreement includes \$359,843,000 for Interagency Crime and Drug Enforcement as proposed by the Senate, instead of \$374,943,000 as proposed by the House.

The conferees recognize that over \$76,000,000 of funds requested for this account are for agencies other than Department of Justice (DOJ) agencies and while the conferees have agreed to the level proposed by the Senate they have not allocated the reduction solely to non-DOJ agencies, as proposed by the Senate. Instead, the conferees expect the Office of Investigative Agencies Policy at the Department of Justice to allocate these resources based on current task force requirements and to notify the Committees on Appropriations of both the House and Senate of the proposed distribution of these resources pursuant to the reprogramming requirements in Section 605 of this Act. In addition, the conferees direct the Administration to submit the budget requirements of non-DOJ agencies for fiscal year 1997 within the budgets proposed for those agencies.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$2,407,483,000 for the Federal Bureau of Investigation (FBI), instead of \$2,332,081,000 as proposed by the House and \$2,506,671,000 as proposed by the Senate. Of this amount, the conference agreement provides that \$218,300,000 will be derived from the Violent Crime Reduction Trust Fund (VCRTF), instead of \$80,600,000 as proposed by the House and \$202,500,000 as proposed by the Senate. In addition, the conferees agree that of the amounts provided, not less than \$102,345,000 shall be used for counterterrorism investigations, foreign counterintelligence, and other activities related to national security, instead of \$121,345,000 as proposed by the Senate.

The conference agreement provides for the following program increase: (1) \$1,400,000 for personnel to staff the FBI Command Center;

(2) \$3,450,000 for FBI Legal Attaches; (3) \$25,000,000 for tactical operations development and acquisition program; (4) \$8,470,000 for 125 additional FBI staff; (5) \$12,500,000 for FBI forensic services, including \$9,900,000 to modernize FBI forensic laboratory equipment and \$2,600,000 for 75 forensic examiners, technicians and support personnel; (6) \$2,900,000 for equipment for Emergency Response Teams; (7) \$5,000,000 to upgrade and develop FBI databases on gangs and hostage/barricade situations; (8) \$4,000,000 for State, Indian Tribal and local training; (9) \$33,400,000 only for research efforts and engineering services to develop new techniques and equipment to perform court-approved wiretaps and interceptions of communications and shall not be used for deployment of any technology that may be developed without authorizing legislation; (10) \$3,000,000 for aviation maintenance and equipment; (11) \$10,000,000 for wireless radio communications and leasing of antenna sites; (12) \$5,000,000 for Safe Street Task Forces; (13) \$4,200,000 for FBI's DRUGFIRE program, including equipping of State and local laboratories; and (14) \$15,000,000 for FBI's Combined DNA Index System, including \$9,500,000 to equip State and local laboratories with this technology.

The conference agreement does not include \$28,737,000 requested to fully annualize positions approved in fiscal year 1995 because the FBI failed to hire personnel to fill these additional positions.

FBI international operations.—The conference agreement provides an increase of \$3,450,000 for FBI Legal Attache offices. However, the conferees are concerned that the FBI has not adequately presented its short and long term plan for expansion of its international operations and activities. Therefore, the conferees agree that the additional funds provided in this Act may not be expended until a plan for FBI international operations has been developed jointly by the Department of Justice and the Department of State, and has been presented to and approved by the Committees on Appropriations of both the House and Senate consistent with the reprogramming requirements in Section 605 of this Act.

NCIC 2000.—The conferees agree that one of the highest priority projects of Federal, State and local law enforcement is the completion of NCIC 2000. The conferees are aware of delays in the scheduled completion and additional resource requirements that are necessary to bring this vital system on line. The conference agreement therefore ensures that funds will be available for completion of this project by directing balances available in the FBI ADP and Telecommunications account and the Department of Justice Working Capital Fund to be applied to this project. Furthermore, the conferees are aware that the FBI has an additional \$34,548,000 in unobligated balances to be transferred into the Department of Justice Working Capital Fund and directs the FBI to transfer this entire amount immediately to the Working Capital Fund to support the NCIC 2000 project and other needs of the Department of Justice.

The conferees direct the Attorney General and the FBI to make oversight of the management of this project and the contractor a top management priority. Upon receiving information that the contract was severely behind schedule and that the cost for completion of the NCIC 2000 project had escalated to almost double the initial cost estimates, the Committees on Appropriations of both the House and Senate urged the FBI to consider a "firm-fixed" contract in its renegotiation process. The conferees are concerned that the FBI has entered into another "cost-plus" contract for this project. Congress has made completion of this project on time and with-

in the resources provided a priority. The Department of Justice and the FBI should do the same. The conferees direct the FBI to provide a quarterly status report on this project and the performance of the contractor.

Similarly, the conferees are concerned about schedule delays within the Integrated Automated Fingerprint Identification System (IAFIS) project. The conferees are particularly concerned that while the FBI will have entered into contracts on each of the four IAFIS segments by the end of this calendar year, it does not appear that the issues related to integration of these components systems have been adequately addressed. Again, the conferees direct the Attorney General and the FBI to make management of this important project a top priority and expect to receive quarterly status reports on the IAFIS project.

CONSTRUCTION

The conference agreement includes \$97,589,000 for Construction for the Federal Bureau of Investigation (FBI), instead of \$98,400,000 as proposed by the House and \$98,800,000 as proposed by the Senate.

The conference agreement provides for the following: (1) \$10,000,000 for renovations, equipment and telecommunications upgrades to the FBI Headquarters Command Center; (2) \$57,089,000 for architectural design, site planning and the first phase of construction for a new FBI Forensic Laboratory Facility to be located at Ft. Belvoir, Virginia; and (3) \$30,500,000 for upgrades to the FBI Training Academy at Quantico, Virginia, including \$21,350,000 to fully complete the modernization of the outdoor firing range and the tactical firearms training center and \$9,150,000 for necessary maintenance.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$805,668,000 for the salaries and expenses of the Drug Enforcement Administration (DEA) instead of \$793,488,000 as proposed by the House, and \$850,000,000 as proposed by the Senate. Of this amount, the conference agreement provides that \$60,000,000 will be derived from the Violent Crime Reduction Trust Fund (VCRTF) as proposed by the Senate, instead of \$12,000,000 as proposed by the House. The conferees also agree that in addition to amounts appropriated, \$47,241,000 will be available from the Diversion Control Fund for diversion control activities.

The conference agreement includes the following program increases: (1) \$580,000 for DEA's legal attache program; (2) \$5,000,000 for contract linguist support; (3) \$1,650,000 for advanced telephony; (4) \$7,400,000 for office automation; (5) \$3,965,000 for 30 new agents for domestic heroin enforcement; (6) \$4,950,000 for mobile enforcement teams, including teams to address illicit drug activities in rural areas; (7) \$2,000,000 for wireless radio communications; and (8) \$2,000,000 for DRUGFIRE systems.

The conference agreement does not include \$15,400,000 requested to fully annualize positions approved in fiscal year 1995 because the DEA has failed to hire personnel to fill these additional positions.

The conferees understand that the funding provided for an additional DEA Legal Attache office is a portion of funds necessary to establish a joint FBI/DEA Legal Attache office in Beijing, China. Consistent with funding provided for FBI Legal Attache Offices, the conferees agree that these funds should not be expended by DEA until the Committees on Appropriations have approved the plan for FBI international operations.

IMMIGRATION AND NATURALIZATION SERVICE

SALARIES AND EXPENSES

The conference agreement includes \$1,711,023,000 for the salaries and expenses of

the Immigration and Naturalization Service (INS), including the Border Patrol, instead of \$1,725,023,000 as proposed by the House, and a total of \$1,735,796,000 as proposed by the Senate (\$1,119,296,000 for INS and \$616,500,000 for the Border Patrol). Of the amounts provided, the conference agreement provides \$316,198,000 from the Violent Crime Reduction Trust Fund (VCRTF), instead of \$303,542,000 as proposed by the House and \$175,662,000 as proposed by the Senate. The conferees also agree that in addition to amounts appropriated, \$821,447,000 will be available from offsetting fee collections for the purposes outlined in the House and Senate reports. The conferees agree not to include funding for border control activities by doubling the current fee for 245(i) applications. Furthermore, the conferees agree not to implement a border crossing toll as proposed by the Administration.

The conference agreement provides for requested adjustments to base, including the full cost of the pay raise and the following program increases to support enhanced border control, detention and removal of criminal and other deportable aliens, and worksite enforcement and verification:

Border control.—The conference agreement includes 1,420 positions, 614 FTE and \$152,172,000 for enhanced border control activities, of which \$30,872,000 is from the Violent Crime Reduction Trust Fund, including (1) \$83,500,000 for 800 new border patrol agents and 160 support personnel and the reallocation of 200 border patrol agent positions from interior stations to the front lines of the border; (2) \$7,100,000 for border technology and an additional helicopter; (3) \$20,000,000 for 400 new land border inspectors for the Southern border; (4) \$6,000,000 for anti-smuggling units; (5) \$4,700,000 for a pilot interior repatriation effort; and (6) \$30,872,000 for automated border lookout systems, including a pilot exit control system.

Detention and removal of deportable aliens.—The conference agreement includes an increase of 1,400 positions, 702 FTE and \$128,716,000, of which \$33,116,000 is from the VCRTF, to apprehend, locate, detain and deport illegal aliens, including: (1) \$46,116,000 to fully support the Institutional Hearing Program; (2) \$42,700,000 for 418 detention personnel and for over 2,800 additional detention beds; (3) \$26,315,000 for 279 deportation personnel to remove abscondee, criminal aliens and illegal aliens who have been denied asylum or apprehended from worksites; (4) \$5,200,000 to add warrants for arrest into NCIC 2000 for aliens who are repeat offenders to reentry after deportation; and (5) \$8,385,000 for the purchase of new vehicles and transportation costs.

Worksite enforcement and verification.—The conference agreement includes an increase of 384 positions, 192 FTE and \$50,444,000, including \$40,444,000 for investigations personnel to enhance employer sanctions activities and backfill 200 border patrol agents positions that will be reallocated to border patrol stations along with immediate border, and \$10,000,000 to improve the accuracy of INS records and develop pilots for verification systems, including the expansion of the current INS telephone verification systems.

Border control systems modernization.—Within total amounts provided in the Violent Crime Reduction Trust Fund, \$153,570,000 is recommended to continue the border systems modernization effort started last year. The conferees agree that within this effort, the INS should conduct a pilot program to collect records of departing passengers and should also extend fingerprint-based identification systems and automated case tracking systems to the entire Southwest border, as stated in the House and Senate reports.

Resource deployment.—The conferees expect that INS will deploy border patrol agent and

inspector positions to the Southwest border to support the greatest areas of illegal traffic. The conferees direct INS to assign these new positions as "front-line" employees on the immediate border and to staff inspection lanes for the facilitation of traffic across the border. In addition, as mentioned in the House and Senate reports, the conferees expect INS to ensure that staffing levels at the Miami and Hawaii airports are consistent with past years INS staffing models plus projected passenger increases for fiscal year 1996 and that INS participates in the Unified Port Management Pilot Project. The conferees also expect INS to review the requirements of States and localities in the central region of the country in its allocation of additional personnel for interior enforcement initiatives. The conferees direct INS to consult with the Appropriations Committees of both the House and Senate before a final allocation of all of these positions is determined.

INS Offices of Congressional and Public Affairs.—The conferees have agreed to include language that clarifies the activities to be performed by the INS Offices of Congressional and Public Affairs, as proposed by the Senate.

BORDER PATROL

The conference agreement for the Immigration and Naturalization Service includes \$584,800,000 for the Border Patrol, including \$78,000,000 to be provided from the Violent Crime Reduction Trust Fund (VCRTF). For the past two years, the conferees agree that the Congress has made resources to hire additional Border Patrol agents a top priority. The conferees are concerned that despite clear guidance from Congress, those resources have in some instances been diverted to other activities within INS. At a time when budgetary resources are scarce and Congress has made difficult choices in order to ensure that funding is provided to maintain the integrity of our Nation's borders, mismanagement of resources by INS cannot be tolerated. To ensure that the funding provided by Congress is used for its intended purpose, the conferees have agreed to add bill language which directs INS to provide the level of funding for the Border Patrol assumed by the conferees in their determination of total funding levels for the INS.

The resource level provided by the conference agreement provides for an additional 1,000 border patrol agents on the front lines of the border by hiring 800 new border patrol agents and reallocating 200 border patrol positions from interior border patrol stations to stations that are on the immediate border. The conferees understand that INS must undertake a significant recruitment and training process in order to hire and train the new agents in addition to over 2,000 other INS employees. Therefore, the conferees expect INS to report to the Committees on Appropriations of the House and Senate on a quarterly basis, its progress and plans in meeting the hiring goals for new border patrol agents. In addition, the conferees urge the Department to seek, on behalf of INS, the allowable waivers from the Office of Personnel Management that would allow INS to reemploy retired (with no loss of retirement pay) Border Patrol agents and investigators, if feasible, in order to meet training and hiring requirements.

The resource level provided by the conference agreement includes \$12,000,000 for the reallocation of 200 border patrol agent positions from interior stations to the front lines of the border. The conferees agree that effective border control is the most important means of controlling illegal immigration and that the INS must utilize its border patrol resources in a way that ensures that apprehension of illegal aliens at the border is its

first priority. The conferees also agree that INS can no longer use border patrol resources on functions not directly related to border control. However, the conferees recognize the importance of an INS enforcement presence in parts of the country that have significant populations of illegal immigrants. Rather than close any of these offices, the conferees direct INS to restaff these offices with criminal investigative positions in order to ensure that the interior enforcement activities currently performed in these locations can continue. The conferees also recognize that some of the border patrol agents in these offices may opt to convert to the investigator positions and encourage INS management to consider personnel and relocation issues in implementing this action.

California checkpoints.—The conferees have agreed to eliminate the provision in the House bill that would have closed the border patrol traffic checkpoints in San Clemente and Temecula, California. However, the conferees agree that the current operation of these checkpoints is unacceptable. The conferees agree that the effectiveness of these checkpoints is contingent on full operation of these checkpoints on a continuous 24-hour basis and improvements to the current San Clemente checkpoint to reduce delays and increase the safety of agents, the persons being checked, and nearby communities. Therefore, the conferees have included language that prohibits operation of the checkpoints if the checkpoints are not operated on a continuous 24-hour basis and a commuter lane pilot program to expedite commuter traffic is not established. In addition, the conferees direct INS to immediately make the needed improvements, with \$7,500,000 currently available in construction resources, to the San Clemente checkpoint and expect the procurements required to complete these improvements to be made on an expedited basis. The conferees further stipulate that if INS fails to complete these improvements by July 1, 1996, the checkpoint will close immediately until the improvements are completed. However, funds will be available, subject to the reprogramming requirements in section 605 of this Act, to reopen the checkpoint if the Attorney General certifies that exigent circumstances exist. The conferees also expect that INS continue its policy that eliminates high speed pursuits at these checkpoints and direct INS to seek approval by the Committees on Appropriations of both the House and Senate prior to any change in this policy. Furthermore, the conferees direct INS to assign staff to these checkpoints at the full authorized strength and provide additional permanent interior enforcement personnel to Oceanside, Vista, and Carlsbad, California in order to address the problem of alien smuggling operations and related criminal activity in the communities surrounding these checkpoints.

CONSTRUCTION

The conference agreement includes \$25,000,000 for Construction for INS, instead of \$11,000,000 as proposed by the House and \$35,000,000 as proposed by the Senate.

The conference agreement provides for the following: (1) \$7,000,000 for border infrastructure improvements; (2) \$4,300,000 for a triple fencing pilot project along the San Diego border; (3) \$2,700,000 to renovate Charleston Naval Base for a satellite training facility for the Border Patrol; and (4) \$11,000,000 for construction costs for the planned joint INS/U.S. Marshals detention facility to be located in Batavia, New York.

Border Patrol training facility.—The Committees on Appropriations of the House and Senate approved a reprogramming for \$2,300,000 submitted by the Department of

Justice on August 11, 1995, to upgrade and modify facilities at the Charleston Naval Base to meet additional training requirements of the Border Patrol which exceed the capacity of the Federal Law Enforcement Training Center at Glynco, Georgia. The selection of Charleston Naval Base as the new Border Patrol training center was announced by the Department of Justice on July 28, 1995, following a competitive evaluation of several active and former Department of Defense facilities.

Justice Department officials recently informed the House and Senate Appropriations Committee of their desire to establish two INS training facilities, instead of the single Border Patrol facility at Charleston. Their latest proposal would establish a new training facility for INS personnel, other than the border patrol, at Charleston, and a new, separate Border Patrol training facility be constructed at another location.

The conferees have reviewed the most recent Department of Justice proposal and agree that only one additional training facility is necessary to meet INS training requirements for the Border Patrol and that INS should prioritize its remaining training requirements and accommodate this training at the FLETC and through exported training in INS field locations. The conferees have reviewed cost estimates submitted by the Naval Facilities Command and are confident of the accuracy of the Navy's cost estimates and schedule. The conferees question whether a training facility at another location can be constructed more expeditiously and for less cost and believe that the Department has already delayed the process needlessly. Accordingly, the conferees have agreed that construction and modifications at the Charleston Naval Base for the new Border Patrol Training Facility, the site already approved by both the House and Senate Appropriations Committees, should proceed without further delay.

IMMIGRATION EMERGENCY FUND

The conferees have included language in section 605 of this Act, which applies reprogramming requirements to the unobligated balances from prior years of all agencies covered in this Act, including all unobligated balances available in the Immigration Emergency Fund.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

The conference agreement includes \$2,581,078,000 for the salaries and expenses of the Federal Prison System, instead of \$2,588,078,000 as proposed by both the House and Senate. Of this amount, the conference agreement provides that \$13,500,000 will be derived from the Violent Crime Reduction Trust Fund (VCRTF), as proposed by both the House and Senate. The conferees also agree that in addition to amounts appropriated, \$47,000,000 will be available from unobligated balances from the prior year, instead of \$40,000,000 as assumed in both the House and Senate bills. The amount provided is the full amount requested to activate all facilities that are scheduled to open in 1996 and is to be used for the purposes set forth in the House and Senate reports, including activations and expansions of prisons at the following locations: Beaumont, Texas; Taft, California; Forrest City, Arkansas; Tallahassee, Florida; Milan, Michigan; Lompac, California; Fort Worth, Texas; and Lexington, Kentucky. In addition the conferees agree that funding should also be provided so that facilities located in Yazoo City, Mississippi, and Brooklyn, New York are prepared for activation and to ensure that security is not compromised.

The conferees also agreed to include bill language prohibiting the privatization of

Federal prison facilities located in Forrest City, Arkansas and Yazoo City, Mississippi, which were included as part of the Administration's proposal to privatize most future pretrial, minimum, and low security prisons.

National Institute of Corrections.—The conferees recognize the value of and support the continuation of activities and programs of the National Institute of Corrections (NIC). Beginning in fiscal year 1996, funding for NIC shall be included in the Bureau of Prisons Salaries and Expenses budget, Contract Confinement program. The conferees have included \$8,000,000 for this purpose. The NIC shall continue to carry out all functions currently performed by the NIC as outlined in sections 4351-5353 of title 18 United States Code, with the exception of its grant program. Because these activities are primarily performed on behalf of State and local entities, the conferees expect the Bureau of Prisons, when practical and to the maximum extent possible, to pursue reimbursement from State and local entities for these services and to present a plan to the Committees on Appropriations of both the House and Senate by June 30, 1996, that outlines a reimbursement structure that will fully support these activities.

Health care privatization demonstration project.—The conferees understand that health care costs are one of the fastest growing components of the Bureau of Prisons budget. The conferees agree that the Bureau of Prisons should develop and provide a plan to the Committees on Appropriations of both the House and Senate by March 1, 1996, to utilize private and other contracts to provide medical care for inmates, including the use of telemedicine and electronic media. The conferees agree that the Bureau of Prisons should conduct a demonstration project at a minimum of one Federal correctional complex beginning in fiscal year 1996 and for the duration of not less than three years as outlined in the Senate report.

BUILDINGS AND FACILITIES

The conference agreement includes \$334,728,000 for construction, modernization, maintenance and repair of prison and detention facilities housing Federal prisoners, instead of \$323,728,000 as proposed by the House and \$349,410,000 as proposed by the Senate. The conference agreement provides for the following program enhancements:

Beaumont, TX, Medium Security Facility	\$64,500,000
Western Region, Architectural/Engineering design	11,000,000
Mid-Atlantic Region, Site/Planning and design	12,350,000

The conferees have agreed to provide funding for one facility in the Western Region, as proposed by the Administration. The conferees direct the Bureau of Prisons to select one of the two sites considered in their long range plan and to notify the Committees on Appropriations of both the House and Senate of this decision, with appropriate justification, by January 15, 1996.

FEDERAL PRISON INDUSTRIES, INCORPORATED (LIMITATION ON ADMINISTRATIVE EXPENSES)

The conference agreement includes a limitation on administrative expenses of \$3,559,000 for the Federal Prison Industries, as proposed by both the House and Senate bills.

JUSTICE ASSISTANCE

The conference agreement includes \$302,377,000 for Justice Assistance, instead of \$250,377,000 as proposed by the House and \$345,245,000 as proposed by the Senate. Of this amount, the conference agreement provides that \$202,400,000 shall be derived from the Violent Crime Reduction Trust Fund (VCRTF), instead of \$152,400,000 as proposed by the House and \$242,900,000 as proposed by the Senate.

The conference agreement provides for the following programs from direct appropriations and the VCRTF:

Defense/law enforcement technology transfer.—The conferees support the efforts of the Departments of Justice and Defense to identify defense and other advanced technologies for law enforcement purposes. The conference agreement provides \$7,800,000 to assist the National Institute of Justice in its efforts to adopt technologies for law enforcement purposes. Within this amount, \$5,000,000 is provided for continuation of the law enforcement technology network, as proposed by the Senate, and \$2,800,000 is to expand the technology commercialization initiative, as proposed by the House.

Missing children.—The conference agreement provides \$5,971,000 for the Missing Children Program as proposed by both the House and Senate. The conferees agree that within this amount, consideration be given to the

establishment of an exploited child unit within the National Center of Missing and Exploited Children to assist in the nationwide investigation of child sex offenses.

National White Collar Crime Center.—The conference agreement includes \$3,850,000 for the National White Collar Crime Center as proposed by the House, instead of \$2,100,000 as proposed by the Senate. Of the amount provided, \$2,100,000 is for the ongoing operations of the NWCCC and \$1,750,000 is for the establishment of a State and local law enforcement support capability for computer crimes.

Management and administration.—The conference agreement provides \$24,277,000 for Management and Administration expenses of the Office of Justice Programs. In addition, the budget assumes that up to one percent of the total appropriation for each program funded under the Violent Crime Reduction Trust Fund may be used for management and administration expenses of those programs. The conferees agree with that assumption. Further, if one percent is insufficient to support the administration of these programs, the Attorney General may request an increase in that percentage in accordance with the reprogramming requirements in section 605 of this Act.

Violence Against Women Act Programs.—The conference agreement provides \$175,000,000 for Violence Against Women Act programs as proposed by the Senate, instead of \$125,000,000 as proposed by the House. Of the total provided, \$500,000 is included under the U.S. Attorneys appropriation for Federal Victim's Counselors. The conference agreement also includes language as proposed by the Senate, to clarify that funds provided for Grants to Combat Violence Against Women and to Encourage Arrest Policies are provided to States, units of local governments and Indian Tribal governments.

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

The conference agreement includes \$3,393,200,000 for State and Local Law Enforcement Assistance, instead of \$3,333,343,000 as proposed by the House and \$3,487,100,000 as proposed by the Senate. Of this amount, the conference agreement provides that \$3,005,200,000 shall be derived from the Violent Crime Reduction Trust Fund (VCRTF), instead of \$3,283,343,000 as proposed by the House and \$3,147,100,000 as proposed by the Senate.

The conference agreement provides for the following programs from direct appropriations and the VCRTF:

Edward Byrne grants to States.—The conference agreement provides \$535,000,000 for the Edward Byrne Memorial State and Local Law Enforcement Assistance Program, of which \$60,000,000 is for discretionary grants and \$475,000,000 is provided under the Violent Crime Reduction Trust Fund for formula grants under this program.

Byrne discretionary grants.—The conference agreement provides \$60,000,000 for discretionary grants under Chapter A of the Edward Byrne Memorial State and Local Assistance Program, instead of \$50,000,000 as proposed by the House and \$80,000,000 as proposed by the Senate. Within the amount provided, the conferees expect the Bureau of Justice Assistance (BJA) to provide:

\$28,500,000 for the Weed and Seed program; \$4,000,000 for State and local law enforcement activities related to the 1996 Olympic Games;

\$3,000,000 for the National Crime Prevention Council to continue and expand the National Citizens Crime Prevention Campaign (McGruff);

\$1,750,000 to continue and expand the Drug Abuse Resistance Education (DARE) program;

\$2,000,000 for continued funding for the Washington Metropolitan Area Drug Enforcement Task Force;

\$1,000,000 for continued funding for the National Judicial College;

\$4,350,000 for a grant to the Boys and Girls Clubs of America; and

\$1,000,000 to SEARCH Group, Inc. to continue and expand the National Technical Assistance Program, which provides support to State and local criminal justice agencies to improve their use of computers and information technology.

Within the available resources the conferees also urge BJA to favorably consider funding for the Centers of Excellence on Violence Prevention; the National Night Out Program; and the Center of Advanced Support in Technology for Law Enforcement (CASTLE), as stated in the Senate report.

State identification grants.—The conference agreement does not include \$60,000,000 or authorize a new State Technology Grant program as proposed by the Senate under section 119. The conferees understand the intent of the program is to grant funds to State and local governments to upgrade their criminal justice identification systems for linkage to national databases such as the Integrated Automated Fingerprint Identification System (IAFIS), NCIC 2000, ballistics testing systems, and DNA Identification Systems. However, the conferees also understand that the two primary systems, IAFIS and NCIC 2000, are not scheduled to be on-line until 1998. Thus, providing funding for State linkages to these systems at this time is premature. However, the conferees recognize that State and local governments could benefit from systems upgrades and linkages for ballistics testing and DNA identification and analysis. Therefore, the conference agreement provides a total of \$21,000,000 under the FBI and DEA for the FBI's DNA CODIS system and DRUGFIRE system, including funding for State systems upgrades. In addition, \$10,000,000 is provided under the Violent Crime Reduction Trust Fund for Information Technology and DNA identification grants and \$25,000,000 is provided to upgrade criminal

history records in order to implement the National Instant Criminal Background Check System (NICS), resulting from the Brady Handgun Violence Prevention Act.

VIOLENT CRIME REDUCTION TRUST FUND PROGRAMS

Local law enforcement block grant.—The conference agreement includes \$1,903,000,000 for a Local Law Enforcement Block Grant program, as proposed by the House, instead of \$1,690,000,000 for the Community Policing Program, \$100,000,000 for Drug Courts, \$10,000,000 for rural law enforcement, \$2,000,000 for the Ounce of Prevention Council and \$30,000,000 for crime prevention programs, as proposed by the Senate.

The Local Law Enforcement Block Grant will provide resources directly to local communities to permit them to combat violent crime according to their local needs and priorities. This includes putting more police on America's streets. The conferees have included language encouraging localities to use funding provided under this block grant to hire additional police and to build on the police hiring initiative funded in fiscal year 1995. The block grant requires a local match of 10 percent, as compared to 25 percent under the Community Policing Program, thereby enabling more communities to hire police.

The conference agreement provides that the funding will be distributed for this block grant to local governments by using the outline provided in H.R. 728, as passed by the House of Representatives on February 14, 1995, with some modifications, and may be used at the discretion of local governments for the following purposes:

(1) Hiring, training, and employing on a continuing basis new, additional law enforcement officers and necessary support personnel;

(2) Paying overtime to presently employed law enforcement officers and necessary support personnel;

(3) Procuring equipment, technology, and other material directly related to basic law enforcement functions;

(4) Enhancing security measures in and around schools and any other facility or location which is considered by the unit of local government to have a special risk for incidents of crime;

(5) Establishing or supporting drug courts;

(6) Enhancing the adjudication process of cases involving violent juvenile offenders; and

(7) Establishing multi-jurisdictional task forces, particularly in rural areas, composed of Federal and local law enforcement officials to prevent and control crime.

The conferees have also included language that clarifies that the types of prevention programs allowed under the law enforcement block grant are programs that involve cooperation between community residents and law enforcement in order to control, detect, or investigate crime or to prosecute criminals. Examples of these programs currently used in many local communities which have high rates of success include the Drug Abuse Resistance Education (DARE) program, National McGruff Network programs, Boys and Girls Clubs of America, and other direct police-sponsored programs such as neighborhood watch programs. The conferees have also included as an allowable use under the block grant the purchase of insurance to indemnify sworn law enforcement officers subjected to legal action as a result of the discharge of their duty, in cases where the officer acted in good faith and in a manner in which the officer reasonably believed to be in the best interest of public safety. In addition, the conference agreement provides that \$10,000,000 of the total amount provided will

be available for educational expenses under the Police Corps program.

National instant criminal background check system.—The conference agreement provides \$25,000,000 for states to upgrade criminal history records as required under the Brady Bill and for the FBI to complete development of the national instant criminal background check system, as proposed by both the House and Senate.

State prison grants.—The conference agreement provides \$617,500,000 for State Prison Grants pursuant to section 114 of this Act which amends the Prison Grant program included in the Violent Crime Control and Law Enforcement Act of 1994. Of this amount, \$200,000,000 is provided for reimbursement to States for the incarceration of criminal aliens and \$12,500,000 is provided for the Cooperative Agreement Program. The remaining \$405,000,000 is intended for General Grants and Truth-in-Sentencing Grants and administration of the program and includes a \$1,215,000 set-aside for Indian Tribes to build corrections facilities.

State Criminal Alien Assistance Program.—The conference agreement provides \$300,000,000 for the State Criminal Alien Assistance Program for reimbursement to States for the costs of incarceration of criminal aliens, as proposed by both the House and Senate. In addition to this amount the conferees have also agreed to provide \$200,000,000 for this purpose under the State Prison Grants program, as proposed by the House. Thus, the conferees recommend a total of \$500,000,000 for reimbursement to states for alien incarceration, as proposed by the House. The conferees have also agreed to provide this funding pursuant to section 242(j) of the Immigration and Nationality Act as proposed by the Senate, instead of pursuant to section 501 of the Immigration Reform and Control Act of 1986, as proposed by the House, so that funds will also be available for political subdivisions of the State.

Youthful offender incarceration grants.—The conference agreement provides funding for youthful offender incarceration grants as an allowable use under the State Prison Grant program. Therefore, funding is not included under this separate program as proposed by both House and Senate.

DNA identification State grants.—The conference agreement includes \$1,000,000 for DNA Identification State Grants, as proposed by both the House and Senate.

Improved training and technology/automation grants.—The conference agreement provides \$9,000,000 for Improved Training and Technical Automation Grants, as proposed by the Senate, instead of \$10,000,000 as proposed by the House. As stated in the House report, the conferees expect that within the overall amounts recommended, the Office of Justice Programs will examine the following proposals, provide grants if warranted, and report to the Committees on Appropriations of the House and Senate on its intentions for each proposal: (1) North Carolina fingerprint system, and (2) San Francisco communication system.

Law Enforcement Family Support Programs.—The conference agreement includes \$1,000,000 for law enforcement family support programs, as proposed by the House, instead of \$1,200,000 as proposed by the Senate.

Treatment of tuberculosis in correctional institutions.—The conference agreement provides \$200,000 for treatment of tuberculosis in State and Federal Correctional institutions, as proposed by the House.

Gang investigation coordination and information collection.—The conference agreement includes \$1,000,000 for improved information collection on gang investigations as proposed by both the House and Senate. The conferees

are aware that the Regional Information Sharing System (RISS) is developing gang databases for use by State and local law enforcement agencies and encourage the Office of Justice Programs to utilize the RISS network to enhance the collection of gang investigative information.

Motor vehicle theft prevention.—The conference agreement includes \$500,000 for grants to combat motor vehicle theft as proposed by the House, instead of \$1,100,000 as proposed by the Senate.

WEED AND SEED PROGRAM FUND

The conference agreement includes \$28,500,000 for the Weed and Seed program, instead of \$23,500,000 as proposed by the House and \$43,500,000 as proposed by the Senate. The conferees agree that the total amount provided shall be derived from discretionary grants under the Edward Byrne Memorial State and Local Law Enforcement Assistance Programs. Within the amounts provided, the conferees expect that \$270,000 will be provided to the Gospel Mission of Washington, D.C., for the purpose of renovating the former Fulton Hotel and converting it into a drug treatment center for women.

JUVENILE JUSTICE PROGRAMS

The conference agreement includes \$148,500,000 for Juvenile Justice programs as proposed by the House, instead of \$168,500,000 as proposed by the Senate. The conferees have agreed to eliminate a provision proposed by the House that provided \$10,000,000 of discretionary grants under this program to be used for the Weed and Seed program. The conferees suggest that these funds be used to enhance grants addressing youth gangs and related violence and have therefore agreed to also eliminate a provision proposed by the Senate that provided an additional \$20,000,000 for youth gang prevention from discretionary grants under the Edward Byrne Memorial State and Local Law Enforcement Assistance Programs.

Juvenile justice and delinquency prevention.—Of the total amount provided, \$144,000,000 is for grants and administrative expenses for Juvenile Justice and Delinquency Prevention (JJDP) programs including:

1. \$5,000,000 for the Office of Juvenile Justice and Delinquency Prevention (OJJDP) (Part A).

2. \$70,000,000 for Formula Grants for assistance to State and local programs (Part B).

3. \$25,000,000 for Discretionary Grant for National Programs and Special Emphasis Programs (Part C). Within the amount provided for Part C discretionary grants, the conferees expect the OJJDP to provide:

\$2,300,000 to continue and expand the National Council of Juvenile and Family Courts which provides continuing legal education in family and juvenile law;

\$1,000,000 for the Teens, Crime and the Community program; and

\$250,000 for the Low Country Children's Center.

In addition, the conferees also expect OJJDP to examine each of the following proposals included in the House and Senate reports, to provide grants if warranted, and to report to the Committees on Appropriations of both the House and Senate on its intentions for each proposal:

A grant to the Santa Fe Boys and Girls Club;

A grant to the Mable Dodge Lujan Foundation in Taos, New Mexico;

A grant to the Kids Peace national Center for Kids for its Intensive Treatment Family Program;

A grant to Parents Anonymous Inc.;

A grant to continue funding for an Institute for Families in Society Study; and

A grant to the Institute on Violence and Destructive Behavior.

4. \$10,000,000 to expand the Youth Gangs (Part D) program which provides grants to public and private nonprofit organizations to prevent and reduce the participation of at-risk youth in the activities of gangs that commit crimes.

5. \$10,000,000 for Discretionary Grants for State Challenge Activities (Part E) to increase the amount of a State's formula grant by up to 10 percent, if that State agrees to undertake some or all of the ten challenge activities designed to improve various aspects of a State's juvenile justice and delinquency prevention programs.

6. \$4,000,000 for the Juvenile Mentoring Program (Part G) to reduce juvenile delinquency, improve academic performance, and reduce the drop-out rate among at-risk youth through the use of mentors by bringing together young people in high crime areas with law enforcement officers and other responsible adults who are willing to serve as long-term mentors.

7. \$20,000,000 for Incentive Grants for Local Delinquency Prevention Programs (Title V), to units of general local government for delinquency prevention programs and other activities for at-risk youth.

Victims of Child Abuse Act.—The conference agreement includes \$4,500,000 for the various programs authorized under the Victims of Child Abuse Act (VOCA). In addition, funding of \$6,750,000 is provided for Victims of Child Abuse programs under the Violence Against Women Programs funded by the Violent Crime Reduction Trust Fund. The following programs are included in the recommendation:

\$4,500,000 to Improve Investigations and Prosecutions (Subtitle A) as follows:

\$500,000 to establish Regional Children's Advocacy Centers, as authorized by section 213 of VOCA.

\$2,000,000 to establish local Children's Advocacy Centers, as authorized by section 214 of VOCA.

\$1,500,000 for a continuation grant to the National Center for Prosecution of Child Abuse for specialized technical assistance and training programs to improve the prosecution of child abuse cases, as authorized by section 214a of VOCA.

\$500,000 for a continuation grant to the National Network of Child Advocacy Centers for technical assistance and training, as authorized by section 214a of VOCA.

PUBLIC SAFETY OFFICERS BENEFITS

The conference agreement includes \$2,134,000 for Public Safety Officers benefits as proposed by both the House and the Senate bills.

DEPARTMENT OF JUSTICE

GENERAL PROVISIONS

The conference agreement includes the following general provisions for the Department of Justice:

Section 101.—The conference agreement includes section 101 as proposed by both the House and Senate, which makes up to \$45,000 of the funds appropriated to the Department of Justice available for reception and representation expenses.

Sec. 102.—The conference agreement includes section 102 as proposed by both the House and Senate, which continues certain authorities for the Justice Department in fiscal year 1996 that were contained in the Department of Justice Authorization Act, fiscal year 1980.

Sec. 103.—The conference agreement includes section 103 as proposed by both the House and Senate, which prohibits the use of funds to perform abortions in the Federal Prison System.

Sec. 104.—The conference agreement includes section 104 as proposed by both the

House and Senate, which prohibits use of the funds in this bill to require any person to perform, or facilitate the performance of, an abortion.

Sec. 105.—The conference agreement includes section 105 as proposed by both the House and Senate, which states that nothing in the previous section removes the obligation of the Director of the Bureau of Prisons to provide escort services to female inmates who seek to obtain abortions outside a Federal facility.

Sec. 106.—The conferees have agreed to modify section 106 as proposed by both the House and Senate, which allows the Department of Justice to spend up to \$10,000,000 for rewards for information regarding acts of terrorism against a United States person or property at levels not to exceed \$2,000,000 per award, in order to clarify that the provision relates to rewards that are publicly-advertised and offered to the general public.

Sec. 107.—The conference agreement includes section 107 as proposed in the Senate bills, which allows the Department of Justice, subject to reprogramming procedures, to transfer up to 5 percent between any appropriation, but limits to 10 percent the amount that can be transferred into any one appropriation. The House bill excluded the Office of Justice Programs, Justice Assistance account from this authority.

Sec. 108.—The conference agreement includes section 108 as proposed in the House and Senate bills, which allows the Federal Prison System's Commissary Fund to invest amounts not needed for operations of the United States.

Sec. 109.—The conference agreement includes section 109 as proposed in the House and Senate bills, that allows balances remaining in the Assets Forfeiture Fund after September 30, 1995 to be available to the Attorney General for any authorized purpose of the Department of Justice.

Sec. 110.—The conference agreement includes section 110 as proposed in the Senate bill, which prohibits the transfer of Justice Department funds in fiscal year 1996 and hereafter, to other Departments and the Office of Management and Budget. The House bill prohibited this transfer only for fiscal year 1996.

Sec. 111.—The conference agreement includes section 111 as proposed in the House and Senate bills, which extends the quarterly fee payments for debtors under Chapter 11 of the Bankruptcy Code to include the period from when a reorganization plan is confirmed by the Bankruptcy Court until the case is converted or dismissed. The conferees intend that this fee will apply to both pending and new cases.

Sec. 112.—The conference agreement includes section 112 as proposed in the House and Senate bills, that continues the undercover operations authorities for the FBI and DEA for one year. No new authorities are provided.

Sec. 113.—The conference agreement includes section 113 as proposed in the House and Senate bills, that allows the user fee surcharge currently collected by the FBI to defray automation costs related to the development of the NCIC 2000 and Uniform Crime Report systems in addition to costs of the fingerprint identification system.

Sec. 114.—The conferees have agreed to include section 114 and have revised the language proposed in the Senate bill which authorizes a new Violent Offender Incarceration and Truth-in-Sentencing Incentive Grants program to replace the program currently authorized in Title II of the Violent Crime Control and Law Enforcement Act of 1994. The House bill referenced the Prison Grant program authorized under H.R. 667 as passed by the House on February 10, 1995, for

resources provided for this grant program under the Violent Crime Reduction Trust Fund Programs, State and Local Law Enforcement Assistance.

The conferees agree that the Prison Grant program should reward and provide an incentive to States that are taking the necessary steps to keep violent criminals off the streets. The conferees further agree that the program currently authorized in the Violent Crime Control and Law Enforcement Act of 1994 fails to provide an adequate incentive because it allows fifty percent of the funds to be awarded to States even if they have not moved toward truth-in-sentencing and even if they have not increased the percentage of convicted violent offenders sentenced to prison or the time served.

The revised language included in this section authorized \$10,270,000,000 for fiscal years 1996 through 2000 for States to build or expand correctional facilities for the purpose of incarcerating criminals convicted of Part I violent crimes, or persons adjudicated delinquent for an act which if committed by an adult, would be a Part I violent crime. It does not allow funds to be used to operate prisons as provided in the current program and it requires a 10-percent match by the State instead of a 25-percent match as included in the current program. The conferees agree that in developing criteria for determining the eligibility for funding to build or expand bedspace, the Department of Justice should include a requirement that States demonstrate the ability to fully support, operate and maintain the prison for which the State is seeking construction funds.

The provision would establish two grant programs to States: (1) General grants which will receive one-third of the funds, and (2) Truth-in-Sentencing grants which will receive two-thirds of the funds; except when the appropriation exceeds \$750,000,000 for the Prison Grant program in which case each grant program will receive 50 percent of the funds. The conference agreement increases the minimum grant award to 0.6 percent for General grants and to 2.0 percent or 2.5 percent for Truth-in-Sentencing grants (depending on the number of States qualifying for Truth-in-Sentencing grants). A State would qualify for a General grant if it practices indeterminate sentencing and since 1993 has increased the percentage of persons convicted of a Part I violent crime sentenced to prison and increased the average time served in the State for offenses of murder, rape, and robbery under the State's sentencing and release guidelines for such offenses. A State also would qualify for a General grant if it does not practice indeterminate sentencing but since 1993 it has increased the percentage of convicted violent offenders sentenced to prison, increased the average length of such offenders given sentences, and required that such offenders actually serve a higher percentage of their sentences. A State would qualify for a Truth-in-Sentencing grant if it has enacted truth-in-sentencing laws which require criminals convicted of Part I violent crimes to serve at least 85 percent of their sentences. A State also would qualify for Truth-in-Sentencing grants if it practices indeterminate sentencing and it can demonstrate that the average time served for Part I violent crimes in the State equals at least 85 percent of the sentence established under the State's sentencing and release guidelines.

Other provisions of the new authorization require that States share up to 15 percent of the funds received with counties and other units of local government for the construction and expansion of correctional facilities, including jails, to the extent that such units of local government house State prisoners due to States carrying out the policies of the

Act. In addition, under exigent circumstances, States may also use funds to expand juvenile correctional facilities, including pretrial detention facilities and juvenile boot camps. States are also required to implement policies that provide for the recognition of the rights and needs of crime victims to be eligible for grants. The authorization also includes the availability of appropriations to reimburse States that satisfy truth-in-sentencing requirements for the incarceration of criminal aliens. In addition, funds are available, to the extent they are appropriated, for the Cooperative Agreement Program for the short-term housing of Federal prisoners in State institutions and a set-aside program has been included for Indian tribes to build correctional facilities.

Sec. 115.—The conference agreement includes section 115 as proposed by the Senate which allows the Federal Prison System to enter into contracts and other agreements with private entities for a multi-year period for the confinement of Federal prisoners.

The conferees have agreed not to include section 116 as proposed by the Senate, which would have provided the Federal Bureau of Investigation with the same overseas danger pay authority currently provided to the Drug Enforcement Administration.

The conferees have agreed not to include section 117 as proposed by the Senate, which would have removed restrictions on the commercial sale of goods and services produced or provided by the Federal Prison Industries if the President certified that the sale of such goods or services would not result in the loss of jobs in the private sector or adversely affect the sale of private sector goods or services sold on a local or regional basis.

Sec. 116.—The conference agreement includes section 118 as proposed by the Senate and changes the number to section 116, which amends the National Voter Registration Act of 1993 to exempt States which have adopted same-day registration laws prior to August 1, 1994, rather than March 11, 1993, as in current law.

The conferees have agreed not to include section 119 as proposed in the Senate bill which would have provided authorization for a new State grant program for identification systems and would have appropriated \$60,000,000 for this program under the Office of Justice Programs.

The conferees have agreed not to include section 120 as proposed in the Senate bill which would have required the Attorney General to reserve not less than two percent, but not more than three percent of the funds appropriated for the Local Crime Prevention Block Grant program, the Weed and Seed program, and the Youth Gang program under Juvenile Justice, to conduct a comprehensive evaluation of the effectiveness of these programs.

However, the conferees are aware that there is a diverse group of programs funded by the Department of Justice to assist State and local law enforcement and communities in preventing crime. The conferees are concerned that there has not been a recent comprehensive evaluation of the effectiveness of all of these programs and expects that nine months after enactment of this Act, the Attorney General shall provide to the Committees on Appropriations of both House and Senate, a thorough evaluation of the crime programs funded by the Office of Justice Programs, with special emphasis on factors that relate to juvenile crime and the effect of these programs on youth violence.

The conferees further expect that research for this evaluation will (1) be provided directly or through grants and contracts, (2) be independent in nature, and (3) employ rigorous and scientifically recognized standards and methodologies. It is further expected

that the evaluation will measure, but shall not be limited to: (a) reductions in delinquency, juvenile crime, youth gang activity, youth substance abuse, and other high risk factors; (b) reductions in the risk factors in the community, schools, and family environments that contribute to juvenile violence; and (c) increases in the protective factors that reduce the likelihood of delinquency and criminal behavior.

Sec. 117.—The conference agreement includes section 121 as proposed by the Senate and changes the number to section 117, which prohibits the use of voter registration cards by any Federal agency as proof of citizenship.

The conferees have agreed not to include section 122 as proposed by the Senate which would have required the reimbursement to localities for the incarceration of criminal aliens for both 1996 and 1995 expenses. However, the conferees have agreed to provide funding for the State Criminal Alien Assistance Program pursuant to section 242(j) of the Immigration and Nationality Act as proposed by the Senate, so that funds provided in 1996 will be available for political subdivisions of the State. This change is included under Violent Crime Reduction Programs, State and Local Law Enforcement Assistance.

Sec. 118.—The conference agreement includes section 123 as proposed by the Senate and changes the number to section 118, which gives the Administrator of the Drug Enforcement Administration the same authority provided to the Director of the Central Intelligence Agency and the Director of the FBI to use a government vehicle for home to work transportation.

Sec. 119.—The conference agreement includes new language that authorizes the U.S. Foreign Claims Settlement Commission to receive and determine the validity and amounts of claims by U.S. nationals against the Federal Republic of Germany covered by article 2(2) of the Agreement Between the United States and Germany Concerning Final Benefits to Certain United States Nationals Who Were Victims of National Socialist Measures of Persecution, which became enforceable September 19, 1995. In deciding claims under subsection (a) of this section, the conferees intend that the Foreign Claims Settlement Commission consider on the merits the claim of any person who has not benefited from the compensation provided under article 2(1) of the agreement. In applying the criteria set forth in article 1 of the agreement, the conferees expect the Commission will determine whether an institution should be considered a "concentration camp" based on whether the institution is recognized by relevant authorities as a concentration camp or whether conditions at the institution in question were comparable to conditions at a recognized concentration camp.

TITLE II—DEPARTMENT OF COMMERCE AND RELATED AGENCIES

TRADE AND INFRASTRUCTURE DEVELOPMENT RELATED AGENCIES

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

The conference agreement includes \$20,889,000 for salaries and expenses of the Office of the United States Trade Representative, the amount proposed in the Senate bill, and \$60,000 below the amount proposed in the House bill.

INTERNATIONAL TRADE COMMISSION SALARIES AND EXPENSES

The conference agreement includes \$40,000,000 for the salaries and expenses of

the International Trade Commission (ITC) for fiscal year 1996, instead of \$42,500,000 as proposed by the House and \$34,000,000 as proposed by the Senate.

The conferees expect ITC to apply any necessary staffing reductions proportionately to all agency offices, including program as well as administrative support offices.

DEPARTMENT OF COMMERCE

INTERNATIONAL TRADE ADMINISTRATION OPERATIONS AND ADMINISTRATION

The conference agreement includes \$264,885,000 for the operations and administration of the International Trade Administration for fiscal year 1996 as proposed by the House, instead of \$266,079,000 as proposed by the Senate. The following table reflects the distribution of these funds by activity agreed to by the conferees:

Trade Development	\$56,485,000
Int'l Economic Policy	18,400,000
Import Administration	29,200,000
U.S. & F.C.S.	162,600,000
Carryover	-2,000,000
Total, ITA	264,885,000

The conferees intend that this distribution be used as the basis for any proposed reprogramming of funds under this account.

The conferees concur with the language included in the House report regarding the Office of Textiles and Apparel, the National Textile Center, and the Textile/Clothing Technology Corporation. Amounts provided for Trade Development include funding for each of these items in accordance with the House report. The conference agreement includes \$1,500,000 for the Market Development Cooperator Program under Trade Development. Therefore, Trade Development operations are maintained at current services levels.

The conferees expect the funds provided for the Import Administration to support a personnel level sufficient to support the enforcement of trade laws.

The conferees intend that amounts provided above the base for the U.S. and Foreign Commercial Service are for domestic field restructuring and expansion of the Commercial Service in the big emerging markets.

EXPORT ADMINISTRATION

OPERATIONS AND ADMINISTRATION

The conference agreement includes \$38,604,000 for the Bureau of Export Administration (BXA) as proposed by the Senate, instead of \$38,644,000 as proposed by the House. In addition, the conference agreement includes a new proviso, not in either bill, allowing payments and contributions collected and accepted for materials or services provided to support export administration activities to be retained for use in covering the cost of such activities.

The conferees understand that BXA maintains carryover balances of approximately \$3,000,000, and expect the Department to submit a notification of the proposed use of these carryover amounts in accordance with section 605 of this Act.

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The conference agreement includes \$328,500,000 for the Economic Development Administration grant programs as proposed by the House instead of \$89,000,000 as proposed by the Senate.

The following table shows the distribution of these funds by activity as agreed to by the conferees:

Public Works (Title I)	\$165,200,000
Planning	24,400,000
Technical Assistance	9,900,000
Defense Conversion	90,000,000

Economic Adjustment (Title IX)	30,000,000
Trade Adjustment Assistance	8,500,000
Research and Evaluation ...	500,000

The conference agreement increases amounts for Economic Adjustment (Title IX) above the request in order to provide assistance to communities impacted by economic dislocations such as reduced timber harvests on Bureau of Land Management and Forest Service lands and coal industry downswings. Expenditure of funds provided over the amount of the request for this activity shall be subject to the reprogramming procedures outlined in section 605 of the accompanying Act.

SALARIES AND EXPENSES

The conference agreement includes \$20,000,000 for salaries and expenses for the EDA as proposed by the House instead of \$11,000,000 as proposed by the Senate. The conferees expect EDA to use either the Salaries and Expenses appropriation or the revolving fund (under 42 U.S.C. 3143) to pay the salaries and expenses of the EDA Liquidation Division.

MINORITY BUSINESS DEVELOPMENT AGENCY MINORITY BUSINESS DEVELOPMENT

The conference agreement includes \$32,000,000 for the programs of the Minority Business Development Agency (MBDA) as proposed by the House instead of \$32,789,000 as proposed by the Senate. In addition, the conferees have deleted language included in the Senate bill which would have transferred \$1,000,000 of prior year unobligated balances under this account to a new Commerce Reorganization Transition Fund.

The conferees endorse language included in the House report regarding funding for programs that further minority business participation in technology commercialization. Further, the conferees expect MBDA to reduce FTE in order to achieve an appropriate ratio of support staff to total program level.

UNITED STATES TRAVEL AND TOURISM ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$2,000,000 for the salaries and expenses of the U.S. Travel and Tourism Administration as proposed by the House instead of \$12,000,000 as proposed by the Senate. These funds are to remain available through December 31, 1995.

ECONOMIC AND INFORMATION INFRASTRUCTURE

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The conferees have provided \$45,900,000 for salaries and expenses of the activities funded under the Economic and Statistical Analysis account instead of \$40,000,000 as proposed by the House and \$46,896,000 as proposed by the Senate.

ECONOMIC AND STATISTICS ADMINISTRATION REVOLVING FUND

The conference agreement includes language allowing the dissemination of economic and statistical data products as full cost as proposed in both the House and Senate bills.

BUREAU OF THE CENSUS SALARIES AND EXPENSES

The conference agreement includes \$133,812,000 for the Bureau of the Census Salaries and Expenses account as proposed by the Senate instead of \$136,000,000 as proposed by the House. Within the amounts provided, the conferees expect the Bureau to continue the initiative to restructure standard industrial codes.

PERIODIC CENSUSES AND PROGRAMS

The conferees have provided \$150,300,000 for the Census Bureau's Periodic Censuses and

Programs account instead of \$135,000,000 as proposed by the House and \$193,450,000 as proposed by the Senate.

The conferees have included the following amounts for Census programs:

Economic Censuses	\$25,000,000
Census of governments	2,000,000
Census of agriculture	10,000,000
Intercensal Demographic estimates	5,000,000
Decennial Census	50,000,000
Continuous measurement ..	9,000,000
Sample redesign	3,000,000
CASIC	4,000,000
Geographic support	36,000,000
Data processing systems ...	12,000,000
Less Deobligations	-3,100,000
Less carryover	-2,600,000
Total	150,300,000

The conferees intend that this distribution be used as the basis for any proposed reprogramming of funds in accordance with section 605 of this Act.

The amount provided under this account reflects the conferees' continuing concerns with the inability of the Census Bureau to recognize budgetary realities. The Bureau is preparing to undertake the Year 2000 decennial census during a time of severe budget constraints within the Federal government. It is critical that the Bureau act now to reprioritize statistical needs and to streamline operations in order to function within these fiscal constraints. The conferees are concerned that the Bureau and the Department have failed to submit a proposal, requested in the House report, on reprioritization of statistical programs and possible program eliminations. The conferees believe that this review is critical, and expect the Department to submit this proposal to the House and Senate Committees on Appropriations no later than January 15, 1996.

Further, the conferees are disturbed that the Bureau continues to exceeds its full-time equivalent employment (FTE) ceiling. While the conferees understand the cyclical nature of the Bureau's programs, this continuing coverage is of particular concern since it has occurred during the Bureau's low point in the ten year census cycle. According to the National Research Council's report on census modernization, between 1970 and 1990 the cost of Bureau headquarters management increased from \$30,000,000 to \$105,000,000, a 350 percent increase, and headquarters staff increased by almost 3,000 FTE, a 67 percent increase. The conferees believe that there are areas which can and must be streamlined and reduced. The conferees expect the Bureau to include in the aforementioned report an explanation of the cause, cost, and duration of the FTE ceiling coverage and its plans to remedy this situation.

Census 2000.—The conferees continue to be concerned about progress related to the next decennial census. The Appropriations Committee of the House and Senate have for several years cautioned the Bureau that the cost of the Year 2000 Census had to be kept in check, and that only through early planning and decision making could costs be controlled.

The conferees recognize the fiscal year 1996 is a critical year in planning for the decennial census, and that numerous decisions will be made and preparations taken which will have a significant bearing on the overall cost of conducting the census, as well as the design selected. In light of the impact these decisions will have on future appropriations in an era of shrinking resources, the conferees expect the Bureau to consult with the House and Senate Committees on Appropriations, as well as the appropriate authorizing committees, and to submit a notification in

accordance with section 605 of the accompanying Act before implementing plans for the Year 2000 Census final design, methodology, content, and pre-census and post-census operations.

In addition, the conferees expect the Bureau to include in its report to the Committees, as described above, a response to the serious issues raised by the National Research Council concerning cost increases surrounding the 1990 Census and its plans to avoid such increases in the Year 2000 Census. The specific raised by the NRC to be addressed in this report include: (1) dramatic increases in census headquarters staffing and costs; (2) data collection cost increases; (3) data processing cost increases; (4) data dissemination costs; and (5) census testing costs.

Finally, the conferees are disappointed that the Bureau has failed to act on the stipulation included in the fiscal year 1995 House report directing the Bureau to work to obtain reimbursement from other Federal agencies for the costs associated with obtaining information on the decennial census. The conferees expect the Bureau to include in its report to the House and Senate Appropriations Committees an explanation of its progress in implementing this action.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION SALARIES AND EXPENSES

The conference agreement includes \$17,000,000 for the National Telecommunications and Information Administration salaries and expenses instead of \$19,709,000 as proposed by the House. The Senate bill included a total of \$17,000,000 for NTIA salaries and expenses, of which \$8,000,000 was provided through direct appropriations and \$9,000,000 was provided by transfer from the Department of Justice Working Capital Fund for spectrum management. The conference agreement does not include a specific transfer of funds from the Justice Working Capital Fund into this account.

The conference agreement also includes language, as proposed by the Senate, expanding the purposes for which funds may be transferred to NTIA from other government agencies to include spectrum management, analysis and operations. The House bill addressed only funds transferred from other agencies for costs incurred in telecommunications research engineering and related activities by NTIA's Institute for Telecommunications Sciences. This language will allow NTIA to receive funds from other agencies to offset the cost of spectrum management, particularly those costs related to national security and law enforcement. The conferees expect NTIA, working with the Office of Management and Budget, to develop a proposal allowing for the reimbursement of spectrum management costs by other agency users and to provide a report on this proposal to the Committees on Appropriations of the House and the Senate no later than January 15, 1996.

PUBLIC BROADCASTING FACILITIES, PLANNING AND CONSTRUCTION

The conference agreement includes \$15,500,000 for Public Broadcasting Facilities, Planning and Construction grants instead of \$19,000,000 as proposed by the House and \$10,000,000 as proposed by the Senate. The conference agreement allows up to \$2,200,000 of this amount to be used for program administration, as provided in both the House and Senate bills.

INFORMATION INFRASTRUCTURE GRANTS

The conferees have provided \$21,500,000 for NTIA's Information Infrastructure Grant program instead of \$40,000,000 as proposed by the House and \$18,900,000 as proposed by the

Senate. Within the amount provided, the conference agreement designates \$3,000,000 for program administration, instead of \$4,000,000 as proposed by the House and \$900,000 as proposed by the Senate.

The conferees have not included bill language proposed by the Senate requiring NTIA to add certain criteria to the factors taken into consideration in selecting projects funded under this program, including the extent to which a proposal is consistent with State plans and priorities and the extent to which particular applications have been coordinated with telecommunications and information entities within the State. However, the conferees support NTIA's use of such criteria as additional factors to be considered when selecting grants under this program.

PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

The conferees have provided \$82,324,000 for the Patent and Trademark Office as proposed by the Senate instead of \$90,000,000 as proposed by the House.

SCIENCE AND TECHNOLOGY

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The conference agreement includes \$259,000,000 for the internal (core) research account of the National Institute of Standards and Technology instead of \$263,000,000 as proposed by the House and \$222,737,000 as proposed by the Senate.

The conferees concur with the House and Senate position that the Malcolm Baldrige Quality Program be funded under this account. The conferees expect the remaining funds provided to be distributed proportionately to the activities delineated in the House report.

The conference agreement deletes language proposed by the Senate which would have earmarked \$1,200,000 within the amount provided under this account for continuation of the "green buildings" program. The House bill contained no similar provision.

INDUSTRIAL TECHNOLOGY SERVICES

The conference agreement includes \$80,000,000 for the NIST external research account instead of \$81,100,000 as proposed by the House and \$101,600,000 as proposed by the Senate. The conferees have provided this amount to fund only the Manufacturing Extension Partnership Program as proposed by the House. The Senate bill would have allowed up to \$25,300,000 to be used to support continuation grants for prior year Advanced Technology Program awards.

The conferees have provided \$80,000,000 for the Manufacturing Extension Partnership Program instead of \$81,100,000 as proposed by the House and \$76,300,000 as proposed by the Senate. The conferees intend that these funds be applied in accordance with the direction given in the House report.

The conference agreement retains language included in both the House and Senate bills directing that no additional grants be awarded with carryover funds under the Advanced Technology Program, and that any remaining unobligated balances be used to fund continuation costs of ATP grants awarded in prior fiscal years.

CONSTRUCTION OF RESEARCH FACILITIES

The conference agreement included \$60,000,000 for the NIST Construction account as proposed by the House instead of \$27,000,000 as proposed by the Senate. The conferees have included the House language allowing these funds to be used for both construction of new facilities and renovation of existing facilities rather than the Senate

language which would have limited use of the funds to renovation of existing facilities only.

The conference agreement also includes, in a later section, the rescission of \$75,000,000 of prior year carryover amounts from this account. The result of the conference action will allow NIST to obligate \$79,000,000 under this account for fiscal year 1996. The conferees intend that these funds be used for the purpose of proceeding with the construction of a new Chemistry building at the NIST Gaithersburg campus, with the remaining \$9,000,000 to be applied to routine maintenance and repair of structures at both the Gaithersburg and Boulder campuses. The conferees are also concerned about the obligation of more than \$50,000,000 from this account late in fiscal year 1995, and expect NIST to submit no later than January 15, 1996, a full accounting of funds obligated under this account during fiscal year 1995. The conferees are particularly concerned about the obligation of \$22,150,000 of funds against an existing contract for "conservative estimates". The conferees expect NIST to submit a reprogramming of funds in accordance with section 605 of this Act for any amounts subsequently deobligated under any NIST construction contract.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH AND FACILITIES (INCLUDING TRANSFER OF FUNDS)

The conferees have provided an appropriation of \$1,795,677,000 for the Operations, Research, and Facilities account of the National Oceanic and Atmospheric Administration (NOAA) instead of \$1,724,452,000 as proposed by the House and \$1,809,092,000 as proposed by the Senate. In addition, the conference agreement allows \$3,000,000 in offsetting fees related to the aeronautical charting program to be collected to offset this amount, resulting in a final direct appropriation of \$1,792,677,000 instead of \$1,721,452,000 as proposed by the House and \$1,806,092,000 as proposed by the Senate.

In addition to the new budget authority provided, the conference agreement allows a transfer of \$63,000,000 from balances in the account titled "Promote and Develop Fishery Products and Research Related to American Fisheries", instead of \$57,500,000 as proposed by the House and \$62,000,000 as proposed by the Senate.

The conference agreement does not include language proposed by the Senate requiring the National Weather Service to expand not more than \$700,000 to operate and maintain agricultural weather service centers. The House bill contained no similar provision. Funding for agricultural weather offices is addressed later in this report.

The conferees concur with instructions contained in the House and Senate reports regarding the development of a revised budget structure for NOAA in consultation with the House and Senate Appropriations Committees, and expect the submission of the fiscal year 1997 budget request to conform to this new structure.

The conferees are aware that, during the recent shutdown of Federal activities, NOAA utilized carryover funds from various programs, projects and activities to continue operating without following standard notification procedures required under section 605 of the Appropriations Act. Upon enactment of the accompanying Act, the conferees expect NOAA to submit to the House and Senate Appropriations Committees a detailed accounting of the carryover funds utilized for this purpose, including a plan for restoring those activities from which funds were redirected.

The conferees expect NOAA to use the Federal Ship Financing Fund to cover administrative expenses related to that account.

Unless specifically stated otherwise in this Statement of the Committee of the Conference, the conferees intend that amounts expended from the NOAA Operations, Re-	search and Facilities account be allocated as previously described in the Committee reports of the House and Senate.	The following table reflects the distribution of the funds provided in this conference agreement:

The following narrative provides additional information related to certain items included in the preceding table.

NATIONAL OCEAN SERVICE

The conferees have provided a total of \$175,301,000 under this account for the activities of the National Ocean Service.

Mapping and charting.—The conferees have provided \$34,000,000 for NOAA's mapping and charting programs for the purposes as described in the House report, with additional guidance given under the Fleet Modernization account addressed later in this report. In addition, the conferees would be willing to entertain a proposal to reprogram up to \$1,000,000 of these amounts for observation and prediction activities to maintain tide and sea level measurements.

Coastal Ocean Program.—The conferees have provided \$11,500,000 for the Coastal Ocean Program, of which \$700,000 is for the continuation of research on high-salinity estuaries as proposed by the Senate. Within the total amount provided, the conferees expect the Coast Ocean Program managers to respond to the algae bloom in the Peconic Estuary system and adjacent Long Island waters that have devastated the commercial fishing industry. In addition to a concentrated research effort to understand the physiology of the brown tide organism, a systematic and comprehensive mapping of the bottom of the Peconic system should be conducted as soon as possible to identify containments and profile the problems being experienced by the shellfish industry. This action would supplement current efforts to maintain the health and integrity of the entire Peconic system through the Peconic Estuary Program.

Coastal zone management.—The conference agreement includes \$46,200,000 for CZM program grants. An additional \$1,000,000 is provided for the National Estuarine Research Reserve program, in addition to \$3,300,000 provided under the Coastal Zone Management Fund described later in this report. The conferees have agreed to provide \$500,000 to complete NOAA support for the special area management plan.

Marine Sanctuary Program.—The conference agreement includes \$11,685,000 for the National Marine Sanctuary Program. The conferees are aware of concerns related to the proposal to designate a new marine sanctuary site in Puget Sound, Washington. The conferees also recognize the efforts being made by State and local officials, through existing programs, to manage the unique resources in Puget Sound. The conferees expect NOAA to continue the designation process without final designation of the Northwest Straits National Marine Sanctuary in the waters of Puget Sound prior to January 1, 1997 or until all of the county legislative bodies within or bordering the proposed marine sanctuary boundaries vote in the affirmative to ask for final designation.

Other.—Within the amounts provided for geodesy, the conferees have included \$500,000 for continuation of geodetic survey work as described in the Senate report, and \$1,000,000 for continuation of the land information system as described in the House report. Of the latter amount, \$500,000 is included for the Orleans Parish and \$500,000 is for the City of Sulphur to complete the Calcasieu Parish project. The conferees expect NOAA to provide a report within 30 days of enactment of the accompanying Act on the status of unobligated balances available under this program and a proposal to restore amounts previously appropriated for this program in order to complete this activity as soon as possible.

The conference agreement includes a total of \$10,000,000 for NOAA's Coastal Services Center as requested in the budget and provided by the Senate.

Deep Ocean Isolation Study.—The conferees have been made aware of an innovative deep ocean waste handling and disposal system, featuring a patented tethered delivery technology, that could identify an environmentally safe method of subaqueous capping in isolated areas of the deepest ocean. The conferees expect NOAA to evaluate this proposal, and to develop a funding plan for an engineering analysis and preliminary design work on systems to transport dredge soil to a deposit site, transfer the material to a receiving platform, and deploy the tethered delivery system to safely conduct deep ocean waste isolation. The conferees expect NOAA to provide a report on its evaluation of this proposal to the House and Senate Committees on Appropriations and the appropriate authorizing committees, including an estimate of the cost to conduct an initial test of this new system, by April 1, 1996.

NATIONAL MARINE FISHERIES SERVICE

The conference agreement includes a total of \$281,642,000 for the National Marine Fisheries Service.

Within the amounts provided in the above table for base fisheries resource information programs, the conference agreement includes funding at the fiscal year 1995 level for conservation engineering, marine mammal research and protected species research.

The conferees are concerned that the operations of the hatcheries funded in the NOAA Operations, Research and Facilities (ORF) and Construction accounts be performed in a manner to best support the Northwest Salmon plan. The conferees further understand that the current designation of use of the construction funds for screen diversions may be overly restrictive. The conferees intend that some of these Construction funds, not to exceed \$3,500,000, may be available for operations and maintenance provided that the use of funds for such a purpose are subject to a reprogramming notification under the general provisions of this Act, and provided further that NOAA and the States can demonstrate that such a use would maximize the implementation of the Endangered Species Act requirements. The conferees further stipulate that such a plan anticipate no more than the fiscal year 1996 level of funding for these purposes in subsequent years.

Pursuant to the original intent of the Mitchell Act, it is the intent of the conferees that the hatcheries rearing or releasing fish at or below the Bonneville Dam include a program in fiscal year 1996 to release fish above the dam to rebuild upriver natural runs.

Within the funding provided for the Marine Mammal Protection Act, the conferees intend that NOAA provide \$1,500,000 for marine resource observers in the North Pacific, \$550,000 for harbor seal research by the State of Alaska, \$250,000 to the State of Alaska to assist in the implementation of marine mammal take reduction plans in the fisheries off Alaska, and \$350,000 to be allocated to the Alaska Eskimo Whaling Commission for the following purposes: (1) scientific research; (2) International Whaling Commission representation; and (3) implementation of the Alaska Eskimo Whaling Commission and NOAA cooperative agreement. The conferees also expect NOAA to complete a detailed cost-benefit analysis for the Atlantic and Gulf of Mexico menhaden fisheries which may be re-classified from Category III to either Category II or I before any final rule is implemented regarding the incidental taking

of marine mammals by commercial fishermen as published in the *Federal Register* of June 16, 1995.

The conferees concur with the language included in the Senate report regarding RECFIN and MARFIN programs. The conferees also agree with the designations given in the Senate report, within the total amounts available for NMFS, for experimental bycatch research and funding for the Newport Marine Science Center.

The conferees have included funds for the implementation of the Atlantic Coastal Fisheries Cooperative Management Act, and strongly support the Atlantic States Marine Fisheries Commission (ASMFC) actions to improve the management of coastal fisheries. However, the conferees are concerned that in several areas involving public participation, the ASMFC's deliberative process has been inadequate. The conferees expect ASMFC to specifically improve: (1) the public hearing process; (2) the method by which the public is informed of Commission activities; and (3) the effectiveness of ASMFC's advisory committees in the fishery management process. Finally, the conferees expect ASMFC to implement a process for the peer review of fish population models upon which fishery management decisions are based.

Because the Endangered Species Act has not been reauthorized since 1992, the conferees find it inappropriate to fund the application of this law to new prelisting or listing activities associated with threatened or endangered species. These activities include designation of critical habitat, review of petitions to list species and/or revise critical habitat, or other activities the agency conducts as part of its prelisting and listing actions, except for activities associated with the development and/or implementation of habitat conservation plans. The conference agreement does, however, include funds for species currently listed under the law in order to avoid disruption of ongoing programs for these species as well as impacts on the activities of private parties. Section 207 of the accompanying Act also addresses the issue of ESA activities to be conducted by NOAA within the amounts provided.

The conferees concur with the House and Senate direction regarding the NMFS Sea Turtle/Shrimp Fishery Emergency Response Plan (ERP) except that it is the conferees' firm intent that the peer review requirements and revisions required by the House and Senate reports regarding the March 14, 1995 Emergency Response Plan shall also apply to the November 14, 1994 Biological Opinion which led to the Emergency Response Plan. The conferees expect NMFS and the Department of Commerce not to implement any shrimp fishery closures that may result from the March 14, 1995 ERP prior to October 1, 1996.

Any funding provided in this conference agreement for endangered species recovery plan are not to be used by NOAA for any sea turtle, shrimp fishery emergency response plan activities or sea turtle protection and Kemp Ridley recovery activities, except those activities, studies and recovery actions specifically outlined in the House and Senate reports and this statement of conferees. The increases provided for these activities in this conference agreement are intended to enhance salmon conservation efforts in the Pacific Northwest.

The conferees endorse the House and Senate direction regarding an independent survey and analysis of the red snapper stock and red snapper management plan and expect these to be conducted within the total

amounts available for NMFS at the level provided in the Senate report. However, since passage of the House and Senate appropriations bills, the Commerce Department has approved an individual transferable quota (ITQ) system for red snapper in the Gulf of Mexico, despite recent House passage of authorizing legislation prohibiting ITQs. The conferees direct the Secretary of Commerce and the Administrator of NOAA not to expend any funds to implement or enforce an ITQ system in the Gulf of Mexico until the independent assessment and analysis of red snapper stock is completed. The conferees also direct the Secretary and the Administrator to immediately study the feasibility of establishing a commercial bycatch season allowing red snapper endorsed vessels to land restricted catch of red snapper that will utilize an amount of fish commensurate with current estimates of bycatch mortality during the closed directed harvest season. This relief quota for commercial harvesters should be evaluated and compared to the quota averages attributed to the recreational fishery in terms of its biological stock impact.

The conferees expect NOAA to include as a priority under the Saltonstall-Kennedy and MARFIN grant programs, proposals for research and education efforts directed at the protection of high-risk consumers from naturally occurring bacteria associated with raw molluscan shellfish. Specifically, the conferees expect these programs to support ongoing efforts by the Interstate Shellfish Sanitation Conference and the Gulf of Mexico Oyster Industry in addressing concerns associated with *Vibrio vulnificus*.

The statement of the managers accompanying the fiscal year 1995 appropriation for NOAA included a designation of \$500,000 in Saltonstall-Kennedy funds for comprehensive education program for at-risk consumers who consume raw molluscan shellfish. The conferees expect NMFS to transfer the remaining \$250,000 of this amount to the Interstate Shellfish Sanitation Conference (ISSC) to continue implementation of the multi-year education program. The conferees expect the ISSC to manage the program in order to fully utilize its extensive network to ensure balanced participation between Federal and state agencies, the oyster industry and other affected parties in continuing this education program.

The conferees support the NMFS proposal to create an office to address issues related to the marine recreational fishing industry, within available resources. The conferees expect NMFS, as co-chair of the National Recreational Fisheries Coordination Council, to provide the expected guidance and leadership in the effort to conserve, restore, and enhance aquatic systems to provide for increased recreational fishing opportunities nationwide.

Within amounts provided for fisheries management programs, the conferees expect NMFS to maintain a program for fisheries trade promotion.

OCEANIC AND ATMOSPHERIC RESEARCH

The conference agreement includes a total of \$213,944,000 for Oceanic and Atmospheric Research activities.

Interannual and seasonal climate research.—The conferees have provided \$65,500,000 for interannual and seasonal climate research under the structure proposed by the House, of which \$575,500,000 is to continue the basic Climate and Global Change program. The remaining \$8,000,000 is to carry out the base interannual and seasonal research programs.

Marine prediction research.—The conference agreement provided \$10,226,000 for marine prediction research. Within this amount, the conferees intend that Lake Champlain and

Southeast fisheries studies be funded according to the Senate report.

GLERL.—Within the \$5,200,000 provided for the Great Lakes Environmental Research Laboratory, the conferees expect NOAA to continue to support the Great Lakes near-shore research and GLERL zebra mussel research programs.

Sea grant.—The conferees have included \$53,300,000 for the National Sea Grant program, and expect NOAA to continue to fund oyster disease research, zebra mussel research and the National Coastal Research and Development Institute within these amounts. The conferees urge NOAA to fund proposals related to the *Vibrio vulnificus* issue and the education of at-risk consumers regarding raw molluscan shellfish.

NURP.—The conferees have provided \$12,000,000 for the National Undersea Research Program, and direct that each NURP center receive at least \$1,560,000 of these funds. The conferees direct that priority be given to the NURP centers which have received the greatest reductions from rescissions in the previous fiscal year in allocating excess funds after each center has received the minimum \$1,560,000.

NATIONAL WEATHER SERVICE

The conference agreement includes a total of \$606,045,000 for the National Weather Service.

The amount provided includes \$405,300,000 for local warnings and forecasts, including the staffing related to the modernization of the weather service, data buoy maintenance, Pacific and Alaska regional headquarters, and specialized weather services.

The conferees expect that any reductions required within the amounts provided in this conference agreement be applied first to staffing levels at NWS central headquarters. Further, the conferees concur with language included in the House report regarding notification prior to NWS office closures.

While the conference agreement assumes the privatization of specialized weather services, the conferees recognized that it may be necessary, within the funds available, for the National Weather Service to continue to provide agricultural weather, fruit frost, and fire related services for a limited time in areas where private sector entities are not yet available to provide these services. The conferees expect NOAA to submit a report by April 30, 1996, on the status of these privatization proposals. The conferees expect NWS to continue the marine facsimile weather service program within funds provided under local warnings and forecasts.

NATIONAL ENVIRONMENTAL SATELLITE, DATA AND INFORMATION SERVICE

The conference agreement includes \$471,536,000 for NOAA's satellite and data management programs.

The conferees have included \$10,000,000 for NOAA's participation in the LANDSAT program. The conferees are concerned that NOAA's participation in this program will take critical funding away from operational satellites crucial to the National Weather Service. The conferees encourage NOAA to continue to work with other Federal agencies participating in the LANDSAT program to obtain funds for operating LANDSAT ground systems. Should other funding be obtained, the conferees would consider a proposal to reprogram these funds toward other NOAA satellite requirements. The conferees expect these funds not to be obligated prior to enactment of authorization legislation endorsing NOAA's participation in this program.

The conference agreement includes \$29,865,000 for data management systems within with amount provided for NESDIS. The conferees have provided an increase in this account to support initiatives aimed at

converting NOAA's aging paper and microfilm records into intelligent data formats.

The conferees recognize that, in general, the most cost-effective means of procurement is open competition. While there has been discussion within NOAA of providing a sole source procurement for the next buy of Geostationary Operational Environmental Stationary (GOES) satellites, the conferees believe that this procurement should be subject to competition and a fixed price contract, if practicable. The conferees are in agreement that the next buy of GOES satellites should be for "clones" of the current GOES I-M satellites (or "GOES-NEXT"), requiring no new sensors or any other change calling for additional research and development. The goals for the GOES program should be to provide continuity in coverage and to reduce unit costs.

PROGRAM SUPPORT

The conference agreement provides \$132,459,000 for NOAA program support.

Marine services.—The conference agreement includes \$61,100,000 for marine services. The conferees expect funds made available under this account and the NOAA Fleet Modernization account, including prior year carryover funds, for mapping, charting, and geodesy services to be used to acquire such services through contracts entered into with qualified private sector contractors. The conferees expect that contracts for hydrographic, geodetic, and photogrammetric surveying and mapping services shall be awarded in accordance with title IX of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 541 et seq.), as proposed in the House report. Further, the conferees intend that no funds provided under this account, in this Act or in any prior year appropriation, be used to procure equipment that replaces or modernizes NOAA's in-house measurement capabilities when similar services may be obtained by contract through the private sector. The conferees believe that it is inappropriate for NOAA to use its limited resources to acquire specialized equipment for the NOAA fleet, considering the uncertainty of the future of the fleet as well as the availability of such equipment among potential private sector contractors for mapping and charting activities.

COASTAL ZONE MANAGEMENT FUND

The conference agreement includes an appropriation of \$7,800,000, as provided in both the House and Senate bills, from the Coastal Zone Management Fund for the purposes designated by the Senate. The conferees intend that amounts provided will be available as follows: \$4,000,000 for program administration, \$500,000 for State development grants, and \$3,300,000 for the National Estuarine Research Reserve Program. The conferees have provided an additional \$1,000,000 in direct appropriations under the NOAA Operations, Research, and Facilities account for the National Estuarine Research Reserve Program.

CONSTRUCTION

The conference agreement includes a total of \$50,000,000 for the NOAA Construction account as proposed by the Senate instead of \$42,731,000 as proposed by the House. The conferees have provided these funds for the purposes described in the following paragraphs.

The conference agreement includes funding for the National Centers for Environmental Prediction, as proposed in both the House and Senate reports. The conferees have provided \$3,700,000 for general facilities maintenance, \$1,500,000 for the Sandy Hook lease, \$2,000,000 for environmental compliance, \$2,000,000 for above-standard costs at the Boulder laboratory, and \$1,800,000 for NOAA research facilities.

The conferees have included a total of \$19,300,000 for NEXRAD weather office construction and maintenance.

The conferees have included \$4,700,000 for Columbia River facilities in accordance with the language included under the National Marine Fisheries Service (NMFS) addressed in the Operations, Research and Facilities account.

The conference agreement includes funds for NMFS Honolulu laboratory renovations and the Newport Science Center architectural and engineering studies in accordance with the Senate report. The conferees have provided \$3,000,000 for the NMFS Southeast laboratory.

As provided by both the House and Senate, the conferees have included \$10,000,000 for Pribilof Island cleanup. In addition to direction given in both the House and Senate reports, the conferees expect NOAA to use a portion of these funds to stabilize to an appropriate building condition the historic seal processing plant located on the island of Saint George.

The conferees are aware of current shortfalls that exist at the NMFS Tiburon Lab. The conferees expect the NOAA Administrator to prepare a plan of action outlining the most cost-effective approach to address these shortfalls in order to maintain the current research mission. This plan should be submitted to the House and Senate Committees on Appropriations by March 15, 1996. Funds provided in prior years for the Tiburon replacement are made available for this planning effort.

FLEET MODERNIZATION, SHIPBUILDING AND CONVERSION

The conference agreement includes \$8,000,000 for the NOAA Fleet Modernization account, as provided in both the House and Senate bills, and language identical to that included in the House bill. In addition, the conference agreement retains language included in section 612 of the House and Senate bills further clarifying the uses of these funds.

FISHING VESSELS AND GEAR DAMAGE COMPENSATION FUND

The conference agreement includes \$1,032,000 for an appropriation to the Fishing Vessel and Gear Damage Fund as provided in both the House and Senate versions of the bill.

FISHERMEN'S CONTINGENCY FUND

The conference agreement includes \$999,000 for the Fishermen's Contingency Fund, as provided in both the House and Senate versions of the bill.

FOREIGN FISHING OBSERVER FUND

The conference agreement includes \$196,000 for the expenses related to the Foreign Fishing Observer Fund, as provided in both the House and Senate versions of the bill.

FISHING VESSEL OBLIGATIONS GUARANTEES

The conference agreement provides \$250,000 in subsidy amounts for Fishing Vessel Obligations Guarantees as proposed by the Senate. The House bill contained no similar provision. In addition, the conference agreement makes a technical language change to clarify that no loans may be made to purchase any new vessel that would increase the harvesting capacity of any U.S. fishery.

TECHNOLOGY ADMINISTRATION

UNDER SECRETARY FOR TECHNOLOGY/OFFICE OF TECHNOLOGY POLICY

SALARIES AND EXPENSES

The conference agreement includes \$5,000,000 for the Technology Administration as provided in both the House and Senate versions of the bill. The conferees concur with language included in the House report regarding this account.

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$29,100,000 for the general administration of

the Commerce Department as provided in both the House and Senate versions of the bill.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$19,849,000 for the Commerce Department Inspector General as proposed by the Senate instead of \$21,849,000 as proposed by the House.

COMMERCE REORGANIZATION TRANSITION FUND

The conference agreement does not include an appropriation of \$20,000,000 for a new Commerce Reorganization Transition Fund as proposed by the Senate. The House bill contained no similar provision. The conference agreement includes a new general provision (section 210) requiring that any costs resulting from reorganization or consolidations be absorbed within the total budget authority available to the Department.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

CONSTRUCTION OF RESEARCH FACILITIES (RESCISSION)

The conference agreement includes a rescission of \$75,000,000 from the NIST Construction account under title II of the Act instead of a rescission of \$152,993,000 from projected end-of-year carryover balances as proposed by the Senate in title VII of the Act. The House bill contained no similar rescission. This rescission of \$75,000,000 reduces the carryover appropriation under this account to \$19,000,000. Uses of the remaining funds are addressed in the description of the fiscal year 1996 appropriation under this account.

DEPARTMENT OF COMMERCE GENERAL PROVISIONS

The conference agreement includes the following general provisions for the Department of Commerce:

Section 201.—The conference agreement includes section 201, identical in both versions of the bill, regarding certifications of advanced payments.

Sec. 202.—The conference agreement includes section 202, identical in both versions of the bill, allowing funds to be used for hire of passenger motor vehicles.

Sec. 203.—The conference agreement includes section 203, identical in both bills, prohibiting reimbursement to the Air Force for hurricane reconnaissance planes.

Sec. 204.—The conference agreement includes section 204, identical in both the House and Senate versions of the bill, prohibiting funds from being used to reimburse the Unemployment Trust Fund for temporary census workers.

Sec. 205.—The conference agreement includes section 205, identical in both the House and Senate versions of the bill, regarding transfer authority between Commerce Department appropriation accounts.

Sec. 206.—The conference agreement includes a new section 206 providing for the notification of the House and Senate Committees on Appropriations of a plan for transferring funds to appropriate successor organizations within 90 days of enactment of any legislation dismantling or reorganizing the Department of Commerce, should such legislation be enacted. This section also includes language allowing the Secretary of Commerce or the appropriate head of any successor organization to use available funds to cover the costs of actions relating to the abolishment, reorganization, or transfer of functions and to transfer funds between appropriations accounts in order to cover these costs, should such actions be necessary.

The Senate bill included under section 206 language entitled "Consolidation of Functions of Commerce Department" which: (1)

provided broad authority to the Director of the Office of Management and Budget (OMB) to abolish, reorganize, consolidate or transfer functions within the Department of Commerce in accordance with the provisions of the Senate bill, to terminate or transfer associated personnel as considered appropriate by OMB; (2) authorized employee buyouts through December 15, 1995; and (3) established a Commerce Reorganization Transition fund to cover the costs of consolidation and employee buyouts. The House bill contained no provision on this matter.

The conferees have included new language for section 206 in order to conform the actions taken in this Act to any subsequently enacted legislation dismantling or reorganizing the Department of Commerce.

The conference agreement does not include the language under section 207 as proposed by the Senate, requiring the Secretary of Commerce to conduct a study of the Doppler weather surveillance radar to assess the impact on property owners in the immediate area of the radar sites, as well as the costs of relocating these radars. However, the conferees expect the National Oceanic and Atmospheric Administration, upon enactment of an authorization and to the extend funds are available, to identify an alternative site for the relocation of the NEXRAD radar tower presently located at Sulphur Mountain in Ventura County, California.

Sec. 207.—The conference agreement includes section 207 requiring that no funds provided in this Act, or under any other law, be used to implement certain subsections of the Endangered Species Act until reauthorizing legislation is enacted. This language is identical to that included in the Senate bill as section 208. The House bill contained no similar provision. This language prohibits the Secretary of Commerce, through the National Marine Fisheries Service (NMFS), from proposing the listing of new species under the Endangered Species Act, designation of critical habitat, or final listing determinations, pending reauthorization of that Act. NMFS may use funds for delisting, or for the reclassification of a species from endangered to threatened, and funds may be used for prelisting conservation and other activities that will help prevent future listings of species, and implementation of section 4(d) rules.

Sec. 208.—The conference agreement includes section 208, included in the Senate bill under section 209, allowing the transfer of title of a project in Hiline, Vermont, originally funded under the Economic Development Administration. The House bill contained no similar provision.

Sec. 209.—The conference agreement includes section 209, included in the Senate bill as section 210, providing for the demolition of structures, environmental cleanup and conveyance of land by the Economic Development Administration to the Tuscaloosa (AL) County Industrial Development Authority. The House bill contained no similar provision.

Sec. 210.—The conference agreement includes a new section 210, not included in either bill, requiring that any costs related to personnel actions incurred by a Department or agency funded in title II of the accompanying Act as a result of funding levels provided in this Act, be absorbed within the total budgetary resources available to such Department or agency.

TITLE III—THE JUDICIARY

SUPREME COURT OF THE UNITED STATES

SALARIES AND EXPENSES

The conference agreement includes \$25,834,000 for the salaries and expenses of the Supreme Court as provided in both the House and Senate bills.

CARE OF THE BUILDINGS AND GROUNDS

The conference agreement includes \$3,313,000 for the Supreme Court Care of the Buildings and Grounds account, as provided in both the House and Senate bills. The conference agreement also provides that \$500,000 of the amount appropriated shall be available until expended as proposed by the House, instead of \$565,000 as proposed by the Senate.

UNITED STATES COURT OF APPEALS FOR THE
FEDERAL CIRCUIT

SALARIES AND EXPENSES

The conference agreement includes \$14,288,000 for the U.S. Court of Appeals for the Federal Circuit as proposed by the Senate, instead of \$14,070,000 as proposed by the House. The conferees have provided the higher amount to fund additional court security officers requested by the Court.

UNITED STATES COURT OF INTERNATIONAL
TRADE

SALARIES AND EXPENSES

The conference agreement includes \$10,859,000 for the U.S. Court of International Trade as provided in both the House and Senate bills.

COURTS OF APPEALS, DISTRICT COURTS, AND
OTHER JUDICIAL SERVICES

SALARIES AND EXPENSES

The conferees have provided \$2,433,141,000 for the salaries and expenses of the Federal Judiciary, instead of \$2,409,024,000 as proposed by the House and \$2,446,194,665 as proposed by the Senate. Including amounts provided under the Violent Crime Reduction Trust Fund, addressed below, the total amount available in this conference agreement for the salaries and expenses of the courts is \$2,463,141,000 rather than \$2,450,524,000 as proposed by the House and \$2,476,194,665 as proposed by the Senate.

Within the overall funding available for fiscal year 1996, the conferees expect the Judiciary to fund its highest program priorities, including additional magistrate judges to eliminate existing backlogs in caseloads.

The conference agreement also appropriates \$2,318,000 from the Vaccine Injury Compensation Trust Fund for expenses associated with the National Childhood Vaccine Injury Act of 1986, as provided in both the House and Senate bills.

Optimal utilization of judicial resources.—The conferees are concerned about the ability to sustain the current appropriations level for the Judicial Branch in the context of the need to balance the budget and reduce the deficit. The conferees want to ensure that the Judiciary maintains its current high standards for the delivery of justice in our courts and the public's confidence in the court system. Particularly in this time of budgetary constraints, this must be done in the most cost-effective way possible.

In order to provide the Congress with the means to better evaluate the operations of the courts, the conferees expect the Judicial Conference to continue its effort to identify ways to make the courts more efficient and less costly. As part of this effort, the conferees request that the Judiciary undertake a review, to be performed by an independent, nonpartisan, professional organization outside the Judiciary, but with the complete cooperation and support of the Judiciary. A report of its finding should be submitted by no later than November 30, 1996, with an interim report on the findings to be submitted by April 1, 1996. While the report may address possible improvements in any aspect of the Judiciary and its functions, the conferees expect the report to emphasize the following:

The extent to which the current judicial workload corresponds to the distribution of judicial resources.

The extent to which underutilized court facilities could be closed, or the sharing of courtroom space expanded, without appreciably affecting the delivery of justice, and the potential for savings in space costs that could be realized.

The extent to which the use of contract services might be substituted for non-judge employees in the courts and what, if any, savings could be realized.

The extent to which savings and efficiencies can be realized through enhanced use of automation and other high technology initiatives.

Violent crime reduction trust fund.—The conference agreement includes an appropriation of \$30,000,000 from the Violent Crime Reduction Trust Fund, the same amount provided in the Senate bill. The House bill included an appropriation of \$41,500,000 from the Violent Crime Reduction Trust Fund for the Judiciary. The conferees intend that these funds be used to offset workload requirements of the Federal Judiciary related to the Violent Crime Control and Law Enforcement Act of 1994 and any increased workload requirements related to title VIII of this Act.

DEFENDER SERVICES

The conferees have included \$267,217,000 for the Federal Judiciary's Defender Services account, instead of \$260,000,000 as proposed by the House and \$274,433,000 as proposed by the Senate. The amount provided is for the operation of Federal public defender and community defender organizations and the compensation, reimbursement, and expenses of attorneys appointed to represent persons under the Criminal Justice Act, as amended.

The conference agreement also includes language proposed by the Senate establishing April 1, 1996 as the date by which no funds provided under this account may be expended for Death Penalty Resource Centers (Post-Conviction Defender Organizations). The House bill included no specific date, but would have terminated these centers upon enactment of this Act. The conferees agree that establishing April 1, 1996 as the termination date will allow for a more orderly and efficient close-out of this program.

The conferees recognize the concerns expressed by the Judiciary that the cost of panel attorney representation in Federal capital habeas cases be kept to an appropriate level. Therefore, the conferees expect the Judiciary to initiate a study of approaches to reducing panel attorney costs and the feasibility of conducting a pilot project to assess flat-fee contracts as one such approach. The conferees expect a report on the results of this study to be submitted to the Committees on Appropriations of the House and the Senate within one year of enactment of this Act.

FEES OF JURORS AND COMMISSIONERS

The conference agreement includes \$59,028,000 for Fees of Jurors and Commissioners as provided in both the House and Senate bills.

COURT SECURITY

The conference agreement includes \$102,000,000 for the Federal Judiciary's Court Security account as proposed by the Senate instead of \$109,724,000 as proposed by the House.

ADMINISTRATIVE OFFICE OF THE UNITED
STATES COURTS

SALARIES AND EXPENSES

The conference agreement includes \$47,500,000 for the Administrative Office of the United States Courts as provided in both the House and Senate bills.

FEDERAL JUDICIAL CENTER

SALARIES AND EXPENSES

The conference agreement includes \$17,914,000 for the fiscal year 1996 salaries and

expenses of the Federal Judicial Center instead of \$18,828,000 as proposed by the House and \$17,000,000 as proposed by the Senate. The conferees agree that education and training functions performed by the Center should be maintained at current levels.

JUDICIAL RETIREMENT FUNDS

PAYMENT TO THE JUDICIARY TRUST FUNDS

The conference agreement includes \$32,900,000 for payment to the various Judicial retirement funds as provided in both the House and Senate bills.

UNITED STATES SENTENCING COMMISSION

SALARIES AND EXPENSES

The conferees have included \$8,500,000 for the U.S. Sentencing Commission as provided in both the House and Senate bills.

THE JUDICIARY

GENERAL PROVISIONS

Section 301.—The conference agreement includes section 301 as provided in both the House and Senate bills allowing appropriations to be used for services as authorized by 5 U.S.C. 3109.

Sec. 302.—The conference agreement includes section 302 as provided in both the House and Senate bills which allows appropriations to be available to the Special Court established under the Regional Rail Reorganization Act of 1973.

Sec. 303.—The conference agreement includes section 303, included in both the House and Senate bills, providing the Judiciary with the authority to transfer funds between appropriations accounts. The conference agreement also includes new language exempting the Judiciary's Defender Services account from the 10 percent increase ceiling set by this provision. The conferees have included this exemption because of concerns expressed by the Federal Judiciary that the total requirements for the Defender Services account will exceed \$295,000,000. Because the demands for Federal defender services fluctuate, the conferees have included this provision which will allow additional funds to be transferred to this account from other budgetary resources available to the Judiciary, should additional resources be required, subject to the reprogramming guidelines set forth in section 605 of this Act.

Sec. 304.—The conference agreement includes section 304, identical in both the House and Senate versions of the bill, allowing up to \$10,000 of salaries and expenses funds provided in this title to be used for official reception representation expenses of the Judicial Conference of the United States.

Sec. 305.—The conference agreement deletes section 306 as proposed by the Senate, which would have required (1) that judicial circuit conferences or meetings authorized under section 333 of title 28, United States Code, be held within the geographic boundaries of the court over which the chief judge presides, and (2) that no circuit would receive more than \$100,000 for such conferences. The House bill contained no similar provision. The conferees strongly agree that the Judiciary should make every effort to hold down the cost of judicial circuit conferences, including the use of new communications technologies such as video teleconferencing.

The conference agreement includes a new section 305, similar to section 306 included in the Senate bill, revising section 333 of title 28 of the United States Code to make the holding of judicial conferences optional and to make attendance by judges at these conferences discretionary. Section 306 of the Senate bill included these provisions, as well as a sense of the Senate that the Federal Judiciary should use new communications

technologies to conduct judicial conferences and a provision making this section applicable only to contracts entered into after the date of enactment of this Act. The House bill contained no similar provision.

The conference agreement deletes section 308 regarding the National Fine Center, as proposed by the Senate. The House bill contained no provision on this matter. The conferees understand that the Administrative Office of the U.S. Courts has committed to conducting a time-out and review of the National Fine Center program. The conferees expect the Administrative Office to submit to the Committees on Appropriations of the House and the Senate a report on the results of this independent review by March 1, 1996.

TITLE IV—DEPARTMENT OF STATE AND RELATED AGENCIES

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

The conference agreement includes a total of \$1,719,220,000 for Diplomatic and Consular Programs, instead of \$1,727,298,000 as proposed by the House, and \$1,698,220,000 as proposed by the Senate. The conference agreement includes \$9,720,000 for security enhancement and \$700,000 to be derived from registration fees, as proposed in both the House and Senate bills.

The conference agreement includes language that allows, through April 1, 1996, continued collection of Machine Readable Visa (MRV) fees as an offsetting collection for the cost of consular services. The Senate bill provided this authority for the full fiscal year, and the House bill contained no similar provision. The conference agreement also allows MRV fees to be collected from North American Free Trade Agreement countries during the same time period, which was not proposed in either bill, consistent with the pending House and Senate foreign affairs authorization bills.

The conference agreement also provides \$24,856,000 from within this account for the Diplomatic Telecommunications Service, as proposed by the House and the Senate. The conference agreement modifies the language to make the funds available until expended, and to allow \$7,544,000 of enhancement funds to be expended prior to submission of the pilot project report. Both the House and Senate bills withheld all enhancement funds until submission of the report.

The conference agreement also includes language relating to fees from the operation of the International Center and the use of Blair House facilities, and allowing transfers between the Diplomatic and Consular Programs and the Salaries and Expenses accounts, as proposed by both the House and Senate.

The conference agreement also includes language that was included in both the House and Senate bills requiring that in fiscal year 1997, a system be in place that allocates to each department and agency the full cost of its presence outside the United States. To carry out this provision, the conferees direct the Office of Management and Budget to ensure that in the President's budget requests for fiscal year 1997, the full cost of each Federal agency's overseas presence is clearly reflected within its budget request to Congress.

The conference agreement deletes language included by the Senate, requiring the State Department to report to the President and the Congress on potential cost savings generated by extending foreign service officer tours of duty in nations that require two-year language study programs. The conferees note that some overseas missions, such as those in China and Japan, require language

preparation and extended tours in such countries may be justified. Longer tours may yield significant savings and improve personnel management. Accordingly, the Department of State is directed to conduct the study called for in the Senate bill and to submit the study to the House and Senate Committees on Appropriations not later than May 15, 1996.

The conferees agree that the language in both the House and Senate reports under this heading is to be followed in expending fiscal year 1996 funds. The continuations noted in the House report can be provided through either a grant or contract mechanism.

The conferees believe that U.S. economic and commercial interests are an integral component of our diplomatic relations, and in many overseas diplomatic posts, the cornerstone of our bilateral and multilateral relationships. It is critical that these interests be actively promoted at the highest level. The conferees note that while foreign service officers from other non-State Department agencies have been elevated to ambassadorial rank, no senior officer from the U.S. and Foreign Commercial Service (US&FCS) has been selected as an ambassador. The conferees believe that senior officers of the US&FCS have the understanding and skills necessary to effectively represent U.S. interests at the highest level, particularly in posts of strategic commercial interest to the United States. Therefore, the conferees expect the Administration to nominate at least one senior officer of the US&FCS to ambassadorial rank as soon as possible.

SALARIES AND EXPENSES

The conference agreement includes a total of \$365,146,000 for Salaries and Expenses, as proposed by the House, instead of \$369,870,000 as proposed by the Senate. The conference agreement includes \$1,870,000 for security enhancements, as proposed by both the House and the Senate.

FOREIGN AFFAIRS REORGANIZATION TRANSITION FUND

The conference agreement does not include \$5,000,000 for the Foreign Affairs Reorganization Transition Fund, as proposed by the Senate. The disposition of the Fund is discussed under section 404.

CAPITAL INVESTMENT FUND

The conference agreement includes \$16,400,000 for the Capital Investment Fund, as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$27,369,000 for the combined State and United States Information Agency Inspector General, instead of \$27,669,000 for the combined office, as proposed by the House, and \$24,350,000 for the combined office, as proposed by the Senate. The conference agreement includes new language exempting the Inspector General from the existing requirement to inspect all posts every five years. This language is intended to result in budget savings that will help the Office carry out its mission within the funding level provided in the conference agreement.

Upon enactment of this legislation, the Inspector General of the Department of State will have responsibility for preparing semi-annual reports for three separate organizations—the Department of State, the Arms Control and Disarmament Agency, and the United States Information Agency—and international broadcasting programs. The Inspector General should consult with the House Committee on Government Reform and Oversight, the Senate Governmental Affairs Committee, and the House and Senate Committees on Appropriations on the format and content of the Inspector General's semi-

annual report prior to submitting that report to Congress. This consolidated report will comply with the Inspector General Act of 1978, as amended, and will allow the State Department Inspector General to achieve cost savings and efficiencies in the preparation of these reports.

REPRESENTATION ALLOWANCES

The conference agreement includes \$4,500,000 for Representation Allowances, as proposed by the Senate, instead of \$4,780,000 as proposed by the House.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

The conference agreement includes \$8,579,000 for Protection of Foreign Missions and Officials, as proposed by both the House and the Senate.

SECURITY AND MAINTENANCE OF UNITED STATES MISSIONS

The conference agreement includes \$385,760,000 for this account, instead of \$391,760,000, as proposed by the House, and \$369,860,000, as proposed by the Senate.

The conferees have agreed to rename this account from "Acquisition and Maintenance of Buildings Abroad" to "Security and Maintenance of United States Missions". The conferees believe this name more accurately reflects the activities funded by this account, which are primarily related to the management of over \$10,000,000,000 of U.S. Government real property located overseas and used in carrying out the mission not only of the Department of State, but of the approximately 35 Departments and agencies that carry out programs overseas, including the Department of Justice, the Department of Treasury, and the Department of Defense, to name just a few. These properties include housing for all U.S. Government employees overseas, both U.S. owned and leased. Substantial funds are expended for security upgrades, providing security on all construction projects, and for assuring the safety of U.S. Government employees and their families at their workplace and in their living quarters.

Of the recommended funds, \$369,800,000 are required to maintain current activities. The additional \$15,900,000 may be used to address the backlog in maintenance projects estimated in excess of \$400,000,000. No funding for any new construction projects is provided.

Under title VII of the bill, the conferees have included a rescission of \$60,000,000 from carryover balances in this account.

The Department's ability to address housing and facility needs in the least costly manner possible is potentially limited by the current inability to use lease-purchase agreements. As called for in the House report, the Department is expected to report back on the benefits of the lease-purchase option in managing overseas property needs. Within funds appropriated under this account or carryover from any source, the conferees expect that \$3,500,000 will be made available for architectural and engineering plans associated with a consolidated chancery complex in Kingston. These operations are currently housed in five leased facilities. The conferees believe that consolidation of existing U.S. Government owned property should result in lower operating costs. On-site housing should yield additional savings of up to \$2,000,000 per year in residential security. The plans should be compatible with either a standard construction or with a lease-purchase option. The Department should report to the Committee on Appropriations on the relative costs and benefits of these two options by March 1, 1996.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

The conference agreement includes \$6,000,000 for Emergencies in the Diplomatic

and Consular Service account, as provided in both the House and Senate bills.

REPATRIATION LOANS PROGRAM ACCOUNT

The conference agreement includes a total appropriation of \$776,000 for the Repatriation Loans Program Account, as provided in both the House and Senate bills.

PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN

The conference agreement includes \$15,165,000 for the Payment to the American Institute in Taiwan account, as provided in both the House and Senate bills.

PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

The conference agreement includes \$125,402,000 for the Payment to the Foreign Service Retirement and Disability Fund account, as provided in both the House and Senate bills.

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

The conference agreement includes \$700,000,000 for Contributions to International Organizations to pay the costs assessed to the United States for membership in fifty international organizations, compared to \$858,000,000, as provided in the House bill, and \$550,000,000, as provided in the Senate bill.

The conference agreement does not include language proposed in the Senate bill to permit funding for the International Labor Organization. The House bill had no similar provision. Funding for the International Labor Organization will be decided by the Administration as part of its overall allocation of funds.

The conference agreement includes language contained in both the House and Senate bills regarding withholding of 20 percent of the contribution to the United Nations until a certification is made relating to the establishment of an independent Office of Inspector General at the United Nations, a prohibition on use of funds for interest payments, and limiting the payment of arrearages to uses agreed upon by the United States and the respective international organizations.

The conferees are agreed that no funds are provided for assessments to be paid to the United Nations International Development Organization.

The conferees have agreed, with respect to the Interparliamentary Union (IPU), that no funds should be provided until the IPU adjusts the schedule of IPU meetings to accommodate U.S. participation, and until the IPU reverses its decision to increase the U.S. assessment level from 12.8 percent to 15 percent. In so doing, the IPU should make such adjustments as necessary to ensure that the U.S. is not held accountable for any arrearage resulting from the aforementioned increase. In addition, funds should be provided on the condition that measurable steps are taken to reduce the budget and expenses of IPU. The final decision whether or not to provide funds for continued U.S. membership in IPU should be made by the Speaker of the House and the President Pro Tempore of the Senate, in consultation with the President and Vice President of the U.S. Group of the IPU.

Funding for the U.S. assessment for the Chemical Weapons Convention, should be ratified by the U.S., is to be considered under this account, as provided in the House report.

Allocation of the funds included in the conference agreement is to be made in conjunction with an assessment of the importance of

the fifty international organizations to the national interest of the United States. The Department is expected to report the results of its review of these organizations to the Appropriations Committees no later than January 30, 1996.

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

The conference agreement provides \$225,000,000 for Contributions for International Peacekeeping Activities, as proposed by the Senate, instead of \$425,000,000 as proposed by the House. The overall conference 602(b) allocation of funds to the Subcommittee was not sufficient to permit funding at any other level.

The conference agreement includes language included in both the House and Senate bills requiring a 15 day advance notice of votes in the United Nations Security Council for new or expanded peacekeeping missions and requiring a certification that American businesses are being given equal procurement opportunities.

INTERNATIONAL CONFERENCES AND CONTINGENCIES

The conference agreement includes \$3,000,000 for International Conferences and Contingencies, as provided in both the House and Senate bills.

INTERNATIONAL COMMISSIONS

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

SALARIES AND EXPENSES

The conference agreement includes \$12,058,000 for Salaries and Expenses of the International Boundary and Water Commission (IBWC), instead of \$12,358,000 as proposed by the House and \$11,500,000 as proposed by the Senate.

CONSTRUCTION

The conference agreement includes \$6,644,000 for the Construction account of the IBWC, as proposed by the House, instead of \$8,000,000, as proposed by the Senate.

The conferees note that both House and Senate reports contain identical language calling on the IBWC to fulfill its existing agreements to reimburse local governments and to provide a report within 60 days of enactment of this legislation.

AMERICAN SECTIONS, INTERNATIONAL COMMISSIONS

The conference agreement includes \$5,800,000 for the U.S. share of expenses of the International Boundary Commission, the International Joint Commission, United States and Canada, and the Border Environment Cooperation Commission, as provided in both the House and Senate bills.

INTERNATIONAL FISHERIES COMMISSIONS

The conference agreement includes \$14,669,000 for the U.S. share of the expenses of the International Fisheries Commissions and related activities, as proposed by the House, instead of \$15,119,000, as proposed by the Senate. Allocation of funds is to be made as provided in the House report.

OTHER

PAYMENT TO THE ASIA FOUNDATION

The conference agreement includes \$5,000,000 for the Payment to the Asia Foundation account, instead of \$10,000,000, as proposed by the House and no funding, as proposed by the Senate.

RELATED AGENCIES

ARMS CONTROL AND DISARMAMENT AGENCY

ARMS CONTROL AND DISARMAMENT ACTIVITIES

The conference agreement includes \$35,700,000 for the Arms Control and Disarmament Agency (ACDA), instead of \$40,000,000 as proposed by the House and

\$22,700,000, as proposed by the Senate. To the maximum extent possible, reductions should be taken from administrative functions, rather than from programmatic staff involved in technical aspects of ACDA's activities, including monitoring functions. The conferees note that ACDA also has the option of seeking to change the status of its considerable number of detailees from other agencies from a reimbursable to a non-reimbursable status.

UNITED STATES INFORMATION AGENCY SALARIES AND EXPENSES

The conference agreement includes \$445,645,000 for Salaries and Expenses of the United States Information Agency (USIA), as proposed by the House, instead of \$429,000,000, as proposed by the Senate. All other bill language, which is identical in the House and Senate bills, is included in the conference agreement.

The conferees note that even at the higher House level, substantial reductions will be required, including a reduction approaching 600 positions, and the closing of up to 20 posts and installations, reducing USIA's field presence by approximately 10 percent. Both House and Senate reports included a recommendation that operations in western Europe and Canada be looked at for further reductions, because these are parts of the world that have the greatest access to information and are most likely to be exposed to the American point of view from other sources. In addition, USIA will need to reexamine all of its major operations and downsize those posts where staffing is not in accord with USIA's resource allocation grouping model.

The conference agreement includes sufficient funding for the phase out of the Latin America data base, as provided in the Senate report.

TECHNOLOGY FUND

The conference agreement includes \$5,050,000 for the Technology Fund, as provided in both the House and Senate bills.

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

The conference agreement includes \$200,000,000 for Educational and Cultural Exchange Programs, instead of \$192,090,000, as proposed by the House, and \$210,000,000, as proposed by the Senate. Of the total, the conferees intend that \$102,500,000 be allocated for the Fulbright program, and \$97,500,000 be allocated for other programs, including \$5,000,000 for international exchange events involving disability issues associated with the Tenth Paralympiad to be held in 1996.

To the maximum extent possible, the conferees urge that the following exchange programs be supported: the International Visitors Program, the Pepper Scholarships, including the Executive Education Program for Central European Business and Professional Leaders, the Muskie Fellowships, the Humphrey Fellowships, the Disability Exchange Clearinghouse, the Congress Bundestag Exchanges, the South Pacific Exchanges, the East Timorese Scholarships, the Cambodian Scholarships, the Tibetan Exchanges, the United States/Mexico Conflict Resolution Center, the Institute for Representative Government, the American Institute of Indian Studies and the British Parliamentary Exchange.

Within the total amount of funding provided, funding for exchange support activities is included.

The conferees expect that a proposal for the distribution of the available resources among exchange programs, as well as proposed enhancements for exchanges with the Newly Independent States, will be submitted through the normal reprogramming process prior to final decisions being made.

The USIA should disburse funds in the amount of \$1,800,000 to Mansfield Center for Pacific Affairs to cover the Center's costs in fully implementing the Mike Mansfield Fellowships including the posting of seven 1995 fellows and their immediate families in Japan in order that the fellows may work in a Japanese government agency for one year, preparation and training for ten 1996 fellows, the recruitment and selection of the ten 1997 fellows, and attendant administrative costs.

EISENHOWER EXCHANGE FELLOWSHIP PROGRAM TRUST FUND

The conference agreement includes language as provided in both the House and Senate bills, allowing all interest and earnings accruing to the Trust Fund in fiscal year 1996 to be used for necessary expenses of the Eisenhower Exchange Fellowships. Further issues with respect to this program are dealt with under section 412.

ISRAELI ARAB SCHOLARSHIP PROGRAM

The conference agreement includes language as provided in both the House and Senate bills, allowing all interest and earnings accruing to the Scholarship Fund in fiscal year 1996 to be used for necessary expenses of the Israeli Arab Scholarship Program.

AMERICAN STUDIES COLLECTIONS ENDOWMENT FUND

The conference agreement includes language as provided in both the House and Senate bills, allowing all interest and earnings accruing to the Endowment Fund in fiscal year 1996 to be used for necessary expenses of American Studies Collections.

INTERNATIONAL BROADCASTING OPERATIONS

The conference agreement includes \$325,191,000 for International Broadcasting Operations, instead of \$341,000,000 as proposed by the House and \$294,191,000, as proposed by the Senate. The conference agreement does not include funds for Broadcasting to Cuba under this account, as proposed by the House, but rather includes it in under a separate account, as proposed by the Senate.

The conference agreement does not include language proposed by the Senate that would have limited funding for Radio Free Europe/Radio Liberty (RFE/RL) to \$29,000,000. The House had no similar provision. Under current law, funding for RFE/RL programming cannot exceed \$75,000,000.

The conference agreement does not include language proposed by the House to allow funds to be used for equipment and transmission facilities for Broadcasting to Cuba, but similar language is included under the Broadcasting to Cuba account.

The conference agreement includes language, not in either the House or Senate bill, which allows USIA to use not to exceed \$1,000,000 in funds received in connection with its broadcasting resources, including receipts from advertising, for authorized purposes.

All other language, identical in both House and Senate bills, is included in the conference agreement.

The conference agreement assumes \$5,000,000 in funding for Radio Free Asia, under this account, as did both the House and Senate bills.

The exact distribution of funds under this account for broadcasting operations, associated technical activities and administration is to be decided upon by USIA under the new administrative structure for international broadcasting, authorized by the United States International Broadcasting Act of 1994. The conferees understand that the new Broadcasting Board of Governors has been confirmed. Clarification appears to be required as to how the Broadcasting Board of Governors will operate, how it will interact with USIA, and where ultimate operating au-

thority for international broadcasting lies. All relevant House and Senate Committees should be provided that clarification as soon as possible.

The conferees expect that the Committees will be notified of the final distribution of funding among the activities under this account pursuant to the normal reprogramming procedures.

BROADCASTING TO CUBA

The conference agreement includes \$24,809,000 for Broadcasting to Cuba under a separate account, as proposed by the Senate, instead of within the total for International Broadcasting Operations, as proposed by the House.

The agreement also includes language requiring the relocation of the headquarters of the Office of Cuba Broadcasting from Washington, D.C., to south Florida by April 1, 1996, and permits funds from three accounts, International Broadcasting Operations, Broadcasting to Cuba, and Radio Construction, to be used to carry out the relocation. The Senate bill proposed the relocation, but allowed any USIA funds to be used to carry out the relocation. The House bill contained no similar provision.

The conference agreement includes language permitting use of funds under this account for equipment and transmission facilities, as proposed by the Senate, and similar to language proposed by the House under International Broadcasting Operations.

The conference agreement does not include language proposed by the Senate to allow funds to be used to purchase or lease, maintain and operate aircraft, including aerostats, required to house and operate television broadcasting equipment.

RADIO CONSTRUCTION

The conference agreement includes \$40,000,000 for Radio Construction, instead of \$70,164,000, as proposed by the House, and \$22,000,000, as proposed by the Senate. This account provides funding for the following activities: maintenance, improvements, replacements and repairs; satellite and terrestrial program feeds; engineering support activities; and broadcast facility leases and land rentals.

The conferees reiterate that Congress has made clear its intent on a number of occasions that, to the maximum extent possible, contracts for radio construction projects should be awarded on the basis of a strong preference to American firms and content.

The conferees expect USIA to report on the expected distribution of funds in fiscal year 1996, including carryover.

The conference agreement also includes a rescission of funds from this account under title VII.

EAST-WEST CENTER

The conference agreement includes \$11,750,000 for operations of the East-West Center, instead of no funds, as proposed by the House, and \$18,000,000, as proposed by the Senate.

NORTH/SOUTH CENTER

The conference agreement includes \$2,000,000 for operations of the North/South Center, instead of no funds, as proposed by the House, and \$4,000,000, as proposed by the Senate.

NATIONAL ENDOWMENT FOR DEMOCRACY

The conference agreement includes \$30,000,000 for the National Endowment for Democracy, as provided in both the House and Senate bills.

DEPARTMENT OF STATE AND RELATED AGENCIES

GENERAL PROVISIONS

The conference agreement includes General Provisions for title IV of this location,

as provided in the Senate bill, instead of immediately after the State Department funding paragraphs, as provided in the House bill. The General Provisions heading is retitled to include reference to Related Agencies.

Section 401.—The conference agreement includes section 401, as provided in both the House and Senate bills, permitting use of funds for allowances, differentials, and transportation.

Sec. 402.—The conference agreement includes section 402, as provided in both the House and Senate bills, dealing with transfer authority.

Sec. 403.—The conference agreement includes section 403, as provided in both the House and Senate bills, dealing with the compensation of the United States Commissioner of the International Boundary Commission, United States and Canada.

Sec. 404.—The conference agreement includes a provision: (a) requiring that 90 days after enactment of any legislation consolidating, reorganizing, or downsizing the functions of the Department of State, the United States Information Agency (USIA), and the Arms Control and Disarmament Agency (ACDA), the heads of those agencies are to submit proposals for transferring or rescinding funds appropriated in this bill for functions that are affected by such legislation; and (b) providing those agencies with transfer authority to cover the costs of actions to consolidate, reorganize or downsize the functions under their authority required by such legislation, and of any related personnel action, including voluntary separation incentives, if authorized by such legislation. These actions are subject to reprogramming authority.

The Senate bill contained a provision giving the Director of the Office of Management and Budget broad authority to eliminate redundancies and consolidate functions among the State Department, USIA and ACDA; authorizing employee buy-outs through December 15, 1995; and establishing a Foreign Affairs Reorganization Transition Fund to cover the costs of consolidation and employee buy-outs. The House bill contained no similar provision.

Sec. 405.—The conference agreement includes a provision waiving, through April 1, 1996, provisions of existing legislation that require authorizations to be in place for State Department, United States Information Agency, including International Broadcasting Operations, and Arms Control and Disarmament Agency activities prior to the expenditure of any appropriated funds. The Senate bill included a provision waiving through December 1, 1995, the authorization requirement for State Department activities. The House bill contained no similar provision.

The conference agreement does not include a provision proposed in the Senate bill as section 406 to earmark \$5,000,000 for the Tenth Paralympiad Games out of amounts provided under three United States Information Agency (USIA) accounts. This issue is addressed under the USIA Educational and Cultural Exchange Programs account. The House bill contained no similar provision.

Sec. 406.—The conference agreement includes a provision proposed by the Senate as section 408, renumbered as section 406, to amend the State Department Authorities Act of 1956 with respect to reward authority, to mandate the Department to establish and publicize its reward program. Under current law, the reward program is discretionary. The House bill contained no similar provision.

Sec. 407.—The conference agreement includes a provision proposed by the Senate as section 411, renumbered as section 407, to extend the authorization for the Au Pair program through fiscal year 1999. The House bill contained no similar provision.

Sec. 408.—The conference agreement includes a provision that expands the authorization for the Eisenhower Exchange Fellowship Program to permit the program to extend its activities to areas of the world other than emerging democracies in Europe. The Senate bill contained this provision, proposed as section 412, as well as a proposal to allow the program to use any earned but unused trust income from the period 1992 through 1995, which is not included in the conference agreement. The House bill contained no similar provision.

Sec. 409.—The conference agreement includes a provision, proposed in the Senate bill as section 413, renumbered to read section 409, that states the sense of the Senate that none of the funds in this Act should be used for the deployment of U.S. forces in Bosnia and Herzegovina unless approved in advance by Congress, with certain exceptions in case of emergency. The House bill contained no similar provision.

The conference agreement does not include a provision, proposed in the Senate bill as section 414, stating the sense of the Senate that the President should insist on full compliance of the Russian Federation with the terms of the Treaty on Conventional Armed Forces in Europe and seek the advice and consent of the Senate for any treaty modifications. The conferees consider compliance with the terms of the Treaty to be a high priority in U.S. relations with the Russian Federation, and further understand that there are ongoing negotiations relating to Russian compliance, which are the subject of ongoing meetings involving the Russian Federation, the U.S., and the Treaty's 30 signatories, and therefore reserve judgment until the conclusion of these events. The House bill contained no similar provision.

The conference agreement does not include a provision, proposed by the Senate as section 415, requiring sanctions on Serbia and Montenegro to remain in effect until the President certified that certain conditions had been met. The House bill contained no similar provision.

Sec. 410.—The conference agreement includes a new section, not proposed in either the House or Senate bill, providing that any personnel costs incurred by any Department or agency funded under this title as a result of funding reductions be absorbed within the total budgetary resources available to the Department or agency, and providing authority to transfer funds between appropriations accounts for that purpose. Transfers are to be subject to standard reprogramming procedures. The Senate bill proposed to establish a Foreign Affairs Reorganization Transition Fund under section 404, with a separate appropriation, to pay for consolidation costs. The House bill contained no similar provision.

TITLE V—RELATED AGENCIES

MARITIME ADMINISTRATION

OPERATING-DIFFERENTIAL SUBSIDIES (LIQUIDATION OF CONTRACT AUTHORITY)

The conference agreement includes \$162,610,000 for payment of obligations incurred for the Maritime Administration (MARAD) operating differential subsidy program as provided in both the House and Senate bills.

MARITIME NATIONAL SECURITY PROGRAM

The conference agreement includes \$46,000,000, available upon enactment of an authorization, for a new Maritime National Security Program to provide payments to maintain and preserve a U.S.-flag merchant fleet to serve the national security needs of the United States as determined by the Secretary of Defense in consultation with the Secretary of Transportation. The Senate bill

included \$46,000,000 for necessary expenses of maritime security services as authorized by law. The House bill contained no provision on this matter. This program is funded under the allocation for national security programs. The conferees expect MARAD to submit a notification of the proposed distribution of these funds to the House and Senate Committees on Appropriations by April 1, 1996.

OPERATIONS AND TRAINING

The conference agreement includes \$66,600,000 for the Maritime Administration Operations and Training account instead of \$64,600,000 as proposed by the House and instead of \$68,600,000 as proposed by the Senate. The conferees intend that these funds will be distributed as follows: \$30,900,000 for the U.S. Merchant Marine Academy, \$6,700,000 for State maritime academies, and \$29,900,000 for additional training, operating programs and general administration of the Maritime Administration.

The conference agreement also includes language proposed by the Senate, allowing proceeds from the sale or disposal of National Defense Reserve Vessels to be transferred to the Secretary of the Interior for use as provided in the National Maritime Heritage Act (Public Law 103-451). The House bill contained no similar provision.

MARITIME GUARANTEED LOAN (TITLE XI) PROGRAM ACCOUNT

The conference agreement provides \$40,000,000 in subsidy appropriations for the Maritime Guaranteed Loan Program instead of \$48,000,000 as proposed by the House and \$25,000,000 as proposed by the Senate. This amount will subsidize a program level of not more than \$1,000,000,000 as proposed by the House instead of \$500,000,000 as proposed by the Senate.

The conferees have also included \$3,500,000 for administrative expenses associated with the Maritime Guaranteed Loan Program instead of \$4,000,000 as proposed by the House. The Senate bill included no funds for this purpose. These amounts may be transferred to and merged with amounts under the MARAD Operations and Training account.

ADMINISTRATIVE PROVISIONS

The conference agreement includes provisions contained in both the House and Senate bills involving Government property controlled by MARAD, the accounting for certain funds received by MARAD, and a prohibition on obligations from the MARAD construction fund.

COMMISSION FOR THE PRESERVATION OF AMERICA'S HERITAGE ABROAD

SALARIES AND EXPENSES

The conference agreement provides \$206,000 for the Preservation for America's Heritage Abroad as provided in both the House and Senate bills.

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The conference agreement includes \$8,750,000 for the salaries and expenses of the Commission on Civil Rights instead of \$8,500,000 as proposed by the House and \$9,000,000 as proposed by the Senate.

COMMISSION ON IMMIGRATION REFORM

SALARIES AND EXPENSES

The conference agreement includes \$1,894,000 as proposed by the Senate, instead of \$2,377,000 as proposed by the House.

COMMISSION ON SECURITY AND COOPERATION IN EUROPE

The conferees provide \$1,090,000 for the Commission on Security and Cooperation in Europe as proposed by both the House and Senate.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$233,000,000 for the salaries and expenses of the Equal Employment Opportunity Commission, as proposed by both the House and Senate.

FEDERAL COMMUNICATIONS COMMISSION SALARIES AND EXPENSES

The conference agreement provides a total of \$175,709,000 for the salaries and expenses of the Federal Communications Commission instead of \$185,232,000 as proposed by the House and \$166,185,000 as proposed by the Senate. The conference agreement also provides for the collection and retention of \$116,400,000 in offsetting fee collections, as provided in both the House and Senate bills.

Within the amount provided, the conferees intend that the FCC continue the restructuring proposal initiated in June, 1995, including the closure of certain field offices as proposed by the Commission to the House and Senate Committees on Appropriations on October 20, 1995. The conferees have included, within the amount provided, \$3,000,000 to begin to acquire the equipment necessary to carry out these proposed field office reductions.

The conferees expect remaining reductions to be carried out within FCC headquarters operations through the streamlining and elimination of redundant offices and functions. The conferees expect the FCC to consider first for reductions those offices which have experienced significant growth in recent years, but to hold harmless those activities supported by fees. The FCC should submit a notification in accordance with section 605 of this Act prior to implementing these reductions.

The conferees are aware that concerns have been expressed about actions taken by the FCC to challenge radio license applications or renewals for religious broadcasters on the grounds that requiring religious knowledge, training, or expertise for employees is discriminatory. These concerns have arisen because of the potential impact of such actions on legitimate religious free speech. The conferees expect the FCC not to deny any license application or renewal on these grounds inconsistent with the right to exercise this free speech in recruitment and hiring practices, and to report to the House and Senate Appropriations Committees by not later than March 1, 1996 on the Commission's policy in these cases, and its intention to follow such a policy that recognizes and preserves such religious freedom. If the FCC does move to deny a license application or renewal for a religious broadcaster according to its policy, it shall report to the Committees to demonstrate that it is not abridging the free speech of religious broadcasters.

FEDERAL MARITIME COMMISSION SALARIES AND EXPENSES

The conference agreement includes \$14,855,000 for the salaries and expenses of the Federal Maritime Commission as proposed by the Senate, instead of \$15,000,000 as proposed by the House.

FEDERAL TRADE COMMISSION SALARIES AND EXPENSES

The conference agreement allows a total operating level of \$98,928,000 for the Federal Trade Commission as proposed by the House instead of \$89,035,000 as proposed by the Senate, and includes language provided in both bills allowing \$48,262,000 in offsetting collections from Hart-Scott-Rodino Act premerger filing fees. The conference agreement also assumes the availability of carryover fee balances of \$19,360,000 to offset the appropriations level instead of \$16,000,000 as assumed

in both the House and Senate bills. This amount is based on actual carryover balances identified by the FTC. These actions result in a final appropriated level of \$31,306,000 instead of \$34,666,000 as proposed by the House and \$24,773,000 as proposed by the Senate.

The conference agreement also includes language proposed by the Senate allowing the FTC to use up to \$300,000 of available funds to contract for debt collection services. The House contained no similar provision.

The conferees concur with House language regarding FTC's involvement in areas more appropriately addressed by States and localities.

JAPAN-UNITED STATES FRIENDSHIP COMMISSION

JAPAN-UNITED STATES FRIENDSHIP TRUST FUND

The conference agreement provides \$1,247,000 for the expenses of the Japan-

United States Friendship Commission from the U.S. currency account, and provides for an amount from the Japanese currency account not to exceed the equivalent of \$1,420,000 as provided in both the House and Senate Bills.

LEGAL SERVICES CORPORATION PAYMENT TO THE LEGAL SERVICES CORPORATION

The conference agreement includes \$278,000,000 for payment to the Legal Services Corporation, the same level proposed by the House bill, instead of \$340,000,000 as proposed by the Senate.

The conference agreement designates \$198,750,000 of the amount provided for basic field programs to be used only for competitively awarded grants and contracts, instead of \$115,000,000 as proposed by the Senate, reflecting a provision in the conference agreement setting April 1, 1996 as the deadline for

implementation of competition, rather than September 1, 1996 as proposed by the Senate.

The conference agreement provides \$13,000,000 for the management and oversight functions of the program and designates \$6,000,000 for management and administration, and \$7,000,000 for the Office of the Inspector General, of which \$5,500,000 is to be used to contract with independent external auditors for financial and compliance audits. The conference agreement reflects the transfer of functions and the corresponding resources for compliance monitoring and enforcement to the Inspector General, while retaining the administration of the grant program within the Corporation, as proposed by the House. The Senate did not designate funding for each activity.

The following table shows a funding distribution by activity:

¹ The conference agreement addresses service for Native American communities through adjustments in the basic field program, included under Administrative Provisions.

LEGAL SERVICES CORPORATION ADMINISTRATIVE PROVISIONS

The conference agreement provides for the continuance of funding for basic legal services to ensure that poor individuals have access to the civil justice system. This program has been unauthorized for a number of years, which has required these issues to be dealt with through the inclusion of a number of administrative provisions in Appropriations Acts. The conferees hope that an authorization will be enacted obviating the need for this practice. In the interim, and in keeping with past practices, the conference agreement includes numerous administrative provisions, as proposed by both the House and Senate, governing the allowable use of the funds provided, in many cases significantly current law provisions, and in all cases applying the provisions to all funds, Federal and non-Federal, received by a grantee.

The conference agreement includes language, as proposed by the House, that upon enactment of an authorization, all contradictory provisions will supersede the provisions in this Act. The Senate bill contained no provision on this matter.

As proposed by both the House and Senate, the conference agreement distributes funding for basic field programs by formula, based on the number of poor people residing in an area. A provision is included, as proposed by the Senate, to continue current practice of making certain adjustments to the formula for certain isolated states and territories. The House bill contained no provision on this matter.

The conference agreement provides that funding shall be used only for basic field programs, as proposed by the House, instead of the Senate proposal which may have allowed funding for uses other than basic field programs. The conference agreement also in-

cludes a provision, as proposed by the Senate, to mitigate disproportionate funding reductions for services to Native American communities due to the elimination of the supplemental programs which had previously served Native Americans. The conferees have taken this action because of the unique relationship between the U.S. government and Native American tribes through longstanding treaty obligations, the complexity of Indian tribal law, and the unique challenges facing programs which must provide representation in both U.S. and tribal court systems. The House bill contained no provision on this matter.

The conference agreement extends the deadline for implementation of competition to April 1, 1996, and allows interim funding for grants to basic field programs prior to that date. The House proposed that all grants be awarded competitively on January 1, 1996, and did not propose any interim funding mechanism. The Senate proposed that a portion of basic field programs be awarded competitively by September 1, 1996, and allowed the remaining basic field program grants to be distributed to basic field programs in existence prior to that date.

The conference agreement includes provisions as proposed by the House that: (1) the Corporation be considered a Federal agency, (2) all funds provided be considered Federal funds, and (3) all grantees be subject to all Federal laws regarding the proper use of Federal funds, and that any violations of Federal laws shall result in termination of the contract. The Senate bill contained no provision on this matter.

Both the House and Senate bills proposed many similar requirements and restrictions on funds provided to the LSC grantees from Federal, non-Federal, and private sources. As proposed in both the House and Senate bills, the conference agreement requires that an LSC grantee, must agree not to engage in

litigation and related activities with respect to (1) abortion; (2) redistricting; (3) welfare reform; (4) political activities, including union organizing and strikes; (5) representation of illegal aliens; (6) representation of Federal and state prisoners in civil actions; and (7) representation of individuals charged with drug-trafficking in eviction proceedings brought by a public housing authority. In addition, the grantee must agree to submit to timekeeping requirements proposed by both the House and Senate.

The conference agreement incorporates a provision, proposed by the Senate, to require that the Corporation and its grantees provide written notification to non-Federal funding sources, of the restrictions in this Act or other Acts, prior to accepting non-Federal funding. The conference agreement provides an exception to this and certain other requirements in this Act with respect to the uses of Indian tribal funds. In addition, the conference agreement deletes a provision included in the Senate bill which could have allowed non-Federal funds to be used by LSC grantees to represent prisoners, illegal aliens, and individuals charged with drug-trafficking and facing eviction from public housing.

In addition, the conference agreement includes the following additional items:

The conference agreement includes language, as proposed by the Senate, to prohibit LSC grantees from participating in or bringing any class action suits. The House bill proposed to prohibit LSC grantees from bringing class action suits against Federal, State, and local governments.

The conference agreement allows LSC grantees to represent clients in fee-generating and fee-shifting cases if no private attorney is available to accept such cases, but prohibits LSC grantees from claiming or accepting any attorneys' fees. The House proposed to prohibit LSC grantees from any involvement in such cases, while the Senate proposed to allow LSC grantees, under very limited circumstances, to represent such cases and collect attorneys' fees.

The conference agreement prohibits LSC grantees from collecting any attorneys' fees for all pending and future cases, as proposed by the House. The Senate proposed to prohibit attorneys' fees for all cases initiated after January 1, 1996.

The conference agreement includes provisions, proposed by both the House and Senate, prohibiting LSC grantees from engaging in any activities related to legislative or administrative lobbying or rulemaking.

The conference agreement prohibits LSC grantees from soliciting clients, as proposed by the House. The Senate proposed a similar provision.

The conference agreement adopts a provision, proposed by the Senate, to permit LSC grantees to use non-LSC funds to communicate with State or local entities regarding funding by State or local entities. The House bill contained no provision on this matter.

The conference agreement includes language clarifying that grantees are permitted to receive funding from non-Federal sources designated for programs serving specific populations, such as people with disabilities, provided that the clients served are not otherwise ineligible, and the purposes for which the funding is provided are allowable under this Act, and the underlying statute and regulations.

In addition, the conference agreement incorporates a provision, as proposed by the House, to prohibit funds provided in this Act from being used to pursue lawsuits against the Corporation.

The conference agreement applies all restrictions and requirements in this Act to all new cases undertaken after enactment of this Act and to additional actions on pending cases which are initiated after the enactment of this Act. The agreement allows LSC grantees up to six months to dispose of all pending cases, initiated prior to enactment of this Act, which are in violation of the provisions of this Act. The Senate proposed to apply the restrictions in this Act only to new cases undertaken or additional matters addressed in pending cases after January 1, 1996. The House proposed to apply the restrictions to all pending and new cases effective upon enactment. To ensure that clients are adequately represented, and to allow attorneys to maintain their ethical and professional responsibilities, the conferees have agreed to provide a limited amount of additional time for LSC-funded grantees to withdraw from cases and matters which would now be restricted under this Act. The Corporation shall report to the House and Senate Committees on Appropriations every sixty days as to the status of the disposition of pending cases. Further, while the conference agreement had provided for a transition period for disposition of pending cases, the agreement applies all requirements of disclosure and timekeeping to all activities.

The conference agreement includes language to clarify financial audit requirements to LSC-funded grantees, and ensure that auditors have appropriate access to necessary records. These provisions will ensure that LSC-funded grantees are subject to auditing requirements similar to other non-profit entities receiving Federal funding. Neither the House nor Senate bills contained these provisions.

The conferees understand the importance of proper training of attorneys and paralegals. Such training, which is technical in nature and necessary to ensure attorneys and paralegals have access to current information pertaining to statutes, regulations, and case law, is permitted. However, the conference agreement prohibits grantees from conducting training programs, or providing training materials, which are designed to facilitate or advocate particular public policies or political activities.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$1,190,000 for the salaries and expenses of the Marine Mammal Commission instead of \$1,000,000 as proposed by the House, and instead of \$1,384,000 as proposed by the Senate.

MARTIN LUTHER KING, JR., FEDERAL HOLIDAY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$350,000 for the Martin Luther King, Jr., Federal Holiday Commission for fiscal year 1996 as proposed by the Senate instead of \$250,000 as proposed by the House. Bill language has been added, consistent with the Commission's vote on May 23, 1995 to sunset operations at the end of fiscal year 1996, stating that this represents the final year of Federal funding for the Commission.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

The conference agreement includes a direct appropriation of \$103,445,000 for the Securities and Exchange Commission (SEC), as proposed by the House, instead of \$134,997,000, as proposed by the Senate. It also includes an extension of registration fees under section 6(b) of the Securities Act of 1933 at one twenty-ninth of one percent, expected to generate \$184,293,000, as proposed by the House, instead of one thirty-fourth of one percent, expected to generate \$123,000,000, as proposed by the Senate. Together with carryover from fiscal year 1995 estimated at \$9,667,000, this is estimated to provide an overall operating level of \$297,405,000, as proposed by the House, instead of \$267,664,000 as proposed by the Senate.

1996 Funding Summary

Net General Fund Appropriation	\$103,445,000
Offsetting Collections—Section 6(b)	184,293,000
Total Appropriation	287,738,000
Carry-over from Prior Year	9,667,000
Total Funding	297,405,000

The conference agreement includes technical language, not in either the House or Senate bill, which appropriates a total of \$287,738,000 to the SEC, and then requires the appropriation to be reduced as registration fees are collected, to the level of \$103,445,000 that the conferees have agreed to provide. Any fees collected in excess of \$184,293,000 are to remain available until expended and are not available for obligation until October 1, 1996.

The conference agreement includes language earmarking \$3,000,000 for the Office of Economics, to be headed by the Chief Economist of the Commission, instead of \$3,600,000, as proposed by the Senate, and no language, as proposed by the House.

The conference agreement includes language earmarking \$1,000,000 for Investment Advisers Act enforcement, instead of \$1,500,000 as proposed by the Senate, and no language, as proposed by the House.

The conference agreement does not include language proposed by the Senate to prohibit funds from being used for the Office of Investor Education and Assistance. The House bill contained no similar provision.

SMALL BUSINESS ADMINISTRATION

The conference agreement provides a total of \$589,578,000 for the Small Business Administration, instead of \$590,369,000 as proposed by the House and \$588,091,000 as proposed by the Senate. The distribution of these funds by account is detailed below.

The conference agreement deletes a provision contained in the Senate bill which appropriated \$30,000,000, in addition to sums provided elsewhere in the bill, for the Small Business Administration. The House bill contained no similar provision. The conferees have addressed these additional funds within the context of each individual account.

SALARIES AND EXPENSES

The conference agreement provides an appropriation of \$219,190,000 for the SBA Salaries and Expenses account, instead of \$222,325,000 as provided in the House bill and \$211,881,000 as provided by the Senate. In addition, the conference agreement allows for the collection of \$3,300,000 in offsetting fees to offset this appropriation, as provided by both the House and the Senate, making \$222,490,000 available under this account.

In addition to amounts made available under this heading, the conference agreement includes \$92,622,000 for administrative expenses under the Business Loans Program Account and \$71,578,000 for administrative provisions under the Disaster Loans Program Account. These amounts may be transferred to and merged with amounts available under Salaries and Expenses, resulting in a total level of \$386,690,000 for SBA operating program and noncredit initiatives rather than \$396,247,000 as provided by the House and \$370,203,000 as provided by the Senate.

The conferees understand that funding levels provided for SBA operating programs will require additional office downsizing and closures, and expect SBA to continue to work with the House and Senate Appropriations and Small Business Committees in a consultative manner to develop criteria for determining further headquarters and field office reductions.

The conferees note that the SBA has proposed to centralize LowDoc application processing by establishing one to four centers. While centralized processing may warrant further consideration, the conferees believe that it is inappropriate at this time to establish four centers without further study. Therefore, the conferees would consider a proposal to establish two pilot centers designed to achieve long-term cost savings, taking into account concerns previously expressed by the conferees, subject to the reprogramming procedures in section 605 of this Act.

The conference agreement includes the following amounts for noncredit programs:

SBDCs	\$73,500,000
Section 7(j) grants	2,570,000
SCORE	3,250,000
Women's outreach	4,000,000
Women's council	200,000
Microloan Tech. Asst.	9,000,000
EZ One Stop Shops	2,767,000
Export Asst. Centers	3,202,000
Business Info. Cts	500,000

The amounts provided for EZ One Stop Shops include funding for staffing, equipment, rent, and related overhead expenses.

The conferees encourage the SBA to continue to work with the National Center for Manufacturing Sciences towards implementation of section 303 of Public Law 103-403.

The conferees expect the Administrator to allocate sufficient funds in order to implement biennial examinations of small business development centers as mandated by P.L. 103-403.

Within the amounts provided under this account, the conferees expect the SBA to continue the existing pilot project designed to help small businesses adapt to a paperless procurement environment.

The conferees agree with the emphasis in the Senate report regarding elimination of duplication and the need to study moving toward privatization of certain functions currently undertaken by the SBA.

OFFICE OF INSPECTOR GENERAL

The conferees have provided \$8,500,000 for the SBA Office of Inspector General as proposed by the Senate instead of \$8,750,000 as proposed by the House.

BUSINESS LOANS PROGRAM ACCOUNT

The conference agreement includes a total of \$160,726,000 in subsidy appropriations under the SBA Business Loans Program Account, of which \$4,500,000 is for the direct loan program (for the Microloan direct program only) instead of \$5,000,000 as proposed by the House and \$1,000,000 as proposed by the Senate, and a total of \$156,226,000 is for various guaranteed loan programs. The conference agreement further designates that \$1,216,000 of the guaranteed subsidy is for the Microloan guarantee program and is available until expended, as proposed by the Senate. The House bill provided \$1,700,000 for the Microloan guarantee program. The conference agreement also designates that \$40,510,000 of the total amount provided shall be available until September 30, 1997, as provided in both the House and Senate bills.

The conference agreement includes \$114,500,000 for the SBA 7(a) general business loan program, instead of \$104,500,000 as proposed by the House and \$133,000,000 as proposed by the Senate. Along with prior year carryover balances, this amount will subsidize almost \$11,000,000,000 in new small business loan activity under recently enacted changes in the subsidy rate for this account. The conference agreement includes a total of \$40,510,000 for the small business investment corporation (SBIC) debenture and participating securities programs as proposed by both the House and the Senate. In an effort to minimize the impact of budget cutbacks on popular SBA programs, the conferees intend that no funds provided in this Act be used for the specialized SBIC (SSBIC) program, which has a credit subsidy rate of 30 percent and costs the taxpayers more than twice as much to support as the regular SBIC program.

The conference agreement includes new language, not in either bill, allowing SBA to make up to \$2,500,000 in loans under the 504 Development Company program, in accordance with recently enacted authorizing legislation requiring no subsidy amounts to be appropriated. Both the House and the Senate bills had assumed that such legislation would be enacted, and language was included in the House and Senate reports that would allow a 504 Development Company program level of up to \$2,500,000,000.

In addition, the conference agreement includes \$92,622,000 for administrative expenses to carry out the direct and guaranteed loan programs as provided in the House bill. The Senate bill included a total of \$92,622,000 for administrative expenses to carry out the guaranteed loan program only, of which \$77,600,000 was provided under this account and the remaining \$15,022,000 was designated under the separate \$30,000,000 appropriation discussed above. The amount provided for administrative expenses is available to be transferred to and merged with the appropriations for Salaries and Expenses.

DISASTER LOANS PROGRAM ACCOUNT

The conference agreement includes \$34,432,000 for subsidy costs associated with the SBA Disaster Loans Program as provided in both the House and Senate bills. The conferees note that this subsidy amount assumes enactment of changes to the SBA disaster loan program that have not yet been considered by the Congress and urge expeditious consideration of the proposed changes to this program so that additional appropriations for this program will not be required.

In addition, the conferees have included \$71,578,000 for administrative expenses under this account, instead of \$78,000,000 as proposed by the House and \$62,400,000 as proposed by the Senate. These amounts are to be merged with amounts provided for SBA salaries and expenses.

SURETY BOND GUARANTEES REVOLVING FUND

The conference agreement includes \$2,530,000 for additional capital for the SBA Surety Bond Guarantees Revolving Fund as provided in both the House and Senate versions of the bill.

SMALL BUSINESS ADMINISTRATION

ADMINISTRATIVE PROVISION

The conference agreement includes section 510, providing SBA with the authority to transfer funds between appropriations accounts, as provided in both the House and Senate bills.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The conference agreement provides \$5,000,000 for the salaries and expenses of the Senate Justice Institute as proposed by the Senate, instead of no funds as proposed by the House.

TITLE VI—GENERAL PROVISIONS

The conference agreement includes the following general provisions:

Section 601.—The conference agreement includes section 601, identical in both the House and Senate versions of the bill, regarding the use of appropriations for publicity or propaganda purposes.

Sec. 602.—The conference agreement includes section 602, identical in both the House and Senate versions of the bill, regarding the availability of appropriations for obligation beyond the current fiscal year.

Sec. 603.—The conference agreement includes section 603, identical in both the House and Senate versions of the bill, regarding the use of funds for consulting services.

Sec. 604.—The conference agreement includes section 604, identical in both the House and Senate versions of the bill, providing that should any provision of the Act be held to be invalid, the remainder of the Act would not be affected.

Sec. 605.—The conference agreement includes section 605, identical in both the House and Senate versions of the bills, establishing the policy by which funding available to the agencies funded under this Act may be reprogrammed for other purposes.

Sec. 606.—The conference agreement includes section 606, proposed by the House but deleted by the Senate, regarding the construction, repair or modification of National Oceanic and Atmospheric Administration vessels in overseas shipyards.

Sec. 607.—The conference agreement includes section 607 regarding the purchase of American-made products as provided in both the House and Senate bills.

Sec. 608.—The conference agreement includes section 608 which prohibits funds in the bill from being used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission covering harassment based on religion simi-

lar to proposed guidelines published by the EEOC in October, 1993, as provided in both the House and Senate bills.

Sec. 609.—The conferees have added language to the provision proposed by the House to limit the use of funds to expand the U.S. diplomatic presence in the Socialist Republic of Vietnam, which provides a waiver of the provision if the President certifies that Vietnam is fully cooperating with the U.S. in four areas relating to POW/MIA's. The Senate bill included no provision on this matter.

Sec. 610.—The conference agreement includes a provision that prohibits the use of funds for any United Nations peacekeeping mission that involves U.S. Armed Forces under the command or operational control of a foreign national, unless the President certifies that the involvement is in the national security interest. This provision was included as section 610 in the House bill and as section 609 in the Senate bill.

Sec. 611.—The conference agreement includes section 611 which prohibits the use of funds to provide certain amenities for Federal prisoners as provided for in both the House bill as section 611 and in the Senate bill as section 610.

Sec. 612.—The conference agreement includes section 612 restricting the use of funds provided under the National Oceanic and Atmospheric Administration Fleet Modernization account included in the House bill as section 612 and in the Senate bill as section 611.

Sec. 613.—The conference agreement includes section 613 imposing a limitation on funding for TV Marti, as proposed by the House as section 613 and the Senate as section 612.

Sec. 614.—The conference agreement includes section 614 repealing the authorization for the Advisory Corrections Council, making changes in the table of sections for chapter 401 of title 18 of the United States code to reflect the repeal of that council, and making this section effective 30 days after enactment of this Act. The Senate bill proposed this repeal as section 613, and also proposed termination of the Regulatory Coordination Advisory Committee for the Commodities Future Trading Commission and the repeal of section 5(h) of the Export Administration Act of 1979, which have not been agreed to. The House bill included no provision on this matter.

The conference agreement deletes section 614 as proposed by the Senate, which stated the sense of the Senate that a joint United States-Canadian technical committee should be established to review the impact of creating an outlet from Devils Lake, N.D. under the Boundary Water Treaty of 1909. The House bill included no provision on this matter.

The conference agreement deletes section 615 proposed by the Senate which would have required competitive bidding to determine the disposition of certain portions of the spectrum related to the assignment of DBS licenses. The House bill contained no similar provision. The conferees have dropped this language because the Federal Communications Commission has taken action to require a competitive bidding process for the portions of the spectrum addressed in this amendment. The conferees support this decision by the FCC since it should result in the maximum return to the Treasury.

The conference agreement deletes section 616, as proposed by the Senate, which would have given direction to the head of each agency for which funds are directed under this Act, to take all necessary actions to achieve a 5 percent reduction from fiscal year 1995 levels in the energy costs of facilities used by the agency. A government-wide policy on this issue was established in the FY 1996 Treasury-Postal Appropriation Act.

Sec. 615.—The conference agreement includes a new general provision, not in either the House or Senate bill, requiring agencies and Departments funded in this Act to absorb any necessary costs related to downsizing or consolidations within the amounts provided to the agency or Department.

TITLE VII—RESCISSIONS

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

WORKING CAPITAL FUND

(RESCISSION)

The conference agreement includes a rescission of \$65,000,000 from unobligated balances under this heading, instead of \$55,000,000, as proposed by the Senate, and no rescission, as proposed by the House.

DEPARTMENT OF COMMERCE

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

INFORMATION INFRASTRUCTURE GRANTS

(RESCISSION)

The conference agreement does not include the proposed rescission of \$36,769,000 proposed by the Senate from anticipated unobligated balances under the NTIA Information Infrastructure Grant program. Prior to the end of fiscal year 1995, these funds were obligated and are no longer available for rescission. The House bill did not include a rescission of funds under this program.

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

ACQUISITION AND MAINTENANCE OF BUILDINGS ABROAD

(RESCISSION)

The conference agreement includes a rescission of \$60,000,000 from unobligated balances available under this heading, instead of \$140,000,000, as proposed by the Senate, and no rescission, as proposed by the House. The conferees intend that this rescission be applied against any unanticipated carryover funds that are not associated with a specific project, or against the lowest priority projects for which the remainder of the carryover in currently reserved. The conferees expect the Department to report on the manner in which it intends to apply this rescission.

RELATED AGENCIES

UNITED STATES INFORMATION AGENCY

RADIO CONSTRUCTION

(RESCISSION)

The conference agreement includes a rescission of \$7,400,000 against unobligated balances available under the Radio Construction account, as proposed by the Senate, instead of no rescission, as proposed by the House.

The conferees expect the United States Information Agency to report on the manner in which it intends to apply this rescission.

TITLE VIII—PRISON LITIGATION REFORM

The conference agreement includes a separate title containing legislative language to carry out prison litigation reform and is similar to the language proposed by the Senate bill to limit the remedies for prison condition lawsuits and discourage frivolous and abusive prison lawsuits.

Section 801 contains the short title of the bill, the "Prison Litigation Reform Act of 1995", as proposed by the Senate.

Prison conditions remedies.—Section 802 amends 18 U.S.C. 3626 to require that prison condition remedies do not go beyond the measures necessary to remedy federal rights violations and that public safety and criminal justice needs are given appropriate

weight in framing such remedies. Specifically, the section places limits on the type of prospective relief available to inmate litigants. The relief is generally limited to the minimum necessary to correct the violation of a federal right. Measures limiting prison population such as prison caps or prison release orders can only be imposed as last resort measures after less drastic remedies had proven ineffective. A prison cap in federal proceeding can be ordered only by a three-judge court. These same limitations on prospective relief are applied to preliminary injunctive relief and such relief would expire after a ninety-day period. Prior consent decrees are made terminable upon the motion of either party, and can be continued only if the court finds that the imposed relief is necessary to correct the violation of the federal right. The section also permits the appointment of a disinterested special master to monitor the imposed relief. The special master is intended to assist the court in finding facts and is to place those findings in the record. In addition, the conference agreement contains language, not included in the Senate bill, that provided standing to State legislators to intervene in prison lawsuits.

Prisoner litigation.—The conference agreement includes language proposed by the Senate, with the addition of provisions relating to victim notification and restitution requirements for monetary awards and severability. Section 803 amends the Civil Rights of Institutionalized Persons Act (42 U.S.C. 1997a(c)) to require that administrative remedies be exhausted prior to any prison conditions action being brought under any federal law by an inmate in federal court. It also directs the courts to dismiss suits if they are frivolous, malicious, or fail to state a claim and permits the State to waive its right of reply to any action brought by a prisoner.

Section 804 amends 28 U.S.C. 1915 to require the prisoner to list all assets when filing *in forma pauperis* suits. Section 805 adds a new section 1915A to 28 U.S.C. to require early judicial screening and prompt dismissal of clearly meritless suits against governmental entities or employees. Section 806 amends 28 U.S.C. 1346(b) to limit prisoner suits against the Federal government for mental or emotional injury under the Federal Tort Claims Act to instances where the prisoner shows physical injury as well. The legislation also includes new language in Sections 807 and 808, not included in the Senate bill, that mandates that restitution payments must be taken from any award won by the prisoner and that requires victims to be notified whenever a prisoner receives a monetary award from the State. Section 809 adds a new section 1932 to 28 U.S.C. to allow the court to revoke the prisoner's "good time" credit if he files repetitive frivolous, or malicious suits designed to misuse the justice system. The conference agreement also includes a provision on severability in Section 810, which was not included in the Senate bill.

The conferees also understand that approximately eight percent, or 800,000 of the 10.1 million admittances to jails annually, suffer from severe mental illness such as schizophrenia and manic depressive illness. Most of these individuals have not committed violent or serious felonies but rather misdemeanors, or other non-violent offenses. The conferees further understand that eight percent, or 80,000 of the approximately one million people currently incarcerated in our nation's prisons, suffer from severe mental illness. The conferees agree that the care and treatment provided to these individuals is essential to their health and do not intend for any of the provisions in this title to impact adversely on the availability of this care and treatment.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1996 recommended by the Committee of Conference, with comparisons to the fiscal year 1995 amount, the 1996 budget estimates, and the House and Senate bills for 1996 follows:

New budget (obligational) authority, fiscal year 1995	\$26,698,336,000
Budget estimates of new (obligational) authority, fiscal year 1996	31,158,679,000
House bill, fiscal year 1996	27,585,240,000
Senate bill, fiscal year 1996	27,033,679,665
Conference agreement, fiscal year 1996	27,287,525,000
Conference agreement compared with:
